

JUN 17 2003

Dear Representative and Senator:

We strongly oppose the attacks on birth control and access to basic reproductive health care services taking place in the Legislature. Assembly Bill 67 passed the Assembly recently. AB 67 would allow ANY health care professional the right to refuse to administer ANY needed health care if they are morally opposed to it. (Pregnant women with epilepsy could be denied anti-seizure medication. Prenatal care and tests, such as amniocentesis, can be denied to pregnant women.) We also strongly oppose the repeal of, and the limiting of, the Family Planning Waiver. Not only is the Waiver cost effective (attracting \$38 million in federal funds), it also has bi-partisan support, and, more importantly, provides health care services to low-income women who previously could not access them! DO NOT vote in support of Senate Bill 186 or any items in the budget that aim to restrict access to family planning and birth control. Please support the Family Planning Waiver, and oppose bills that aim to reduce access to birth control and reproductive health services.

Sincerely,

Dear Representative and Senator:

JUN 17 2003

AO 1

We strongly oppose the attacks on birth control and access to basic reproductive health care services taking place in the Legislature. Assembly Bill 67 passed the Assembly recently. AB 67 would allow ANY health care professional the right to refuse to administer ANY needed health care if they are morally opposed to it. (Pregnant women with epilepsy could be denied anti-seizure medication. Prenatal care and tests, such as amniocentesis, can be denied to pregnant women.) We also strongly oppose the repeal of, and the limiting of, the Family Planning Waiver. Not only is the Waiver cost effective (attracting \$38 million in federal funds), it also has bi-partisan support, and, more importantly, provides health care services to low-income women who previously could not access them! DO NOT vote in support of Senate Bill 186 or any items in the budget that aim to restrict access to family planning and birth control. Please support the Family Planning Waiver, and oppose bills that aim to reduce access to birth control and reproductive health services.

Dear Representative and Senator:

We strongly oppose the attacks on birth control and access to basic reproductive health care services taking place in the Legislature. Assembly Bill 67 passed the Assembly recently. AB 67 would allow ANY health care professional the right to refuse to administer ANY needed health care if they are morally opposed to it. (Pregnant women with epilepsy could be denied anti-seizure medication. Prenatal care and tests, such as amniocentesis, can be denied to pregnant women.) We also strongly oppose the repeal of, and the limiting of, the Family Planning Waiver. Not only is the Waiver cost effective (attracting \$38 million in federal funds), it also has bi-partisan support, and, more importantly, provides health care services to low-income women who previously could not access them! DO NOT vote in support of Senate Bill 186 or any items in the budget that aim to restrict access to family planning and birth control. Please support the Family Planning Waiver, and oppose bills that aim to reduce access to birth control and reproductive health services.

Sincerely,

DATE: Wednesday, May 28, 2003

TO: Assembly Representatives

FROM: Susan Armacost, Legislative Director,
Wisconsin Right to Life

RE: Wisconsin Right to Life urges your support of AB 67 and
urges your opposition to **all** amendments

Tomorrow, Thursday, May 29, the Assembly will be voting on Assembly Bill 67 authored by Representative Jean Hundertmark. Representative Hundertmark's legislation contains the most comprehensive conscience rights protections for health care professionals

05/29/2003

ever considered by Wisconsin's state legislature.

Building on current law, AB 67 is a forward looking proposal that would protect the conscience rights of those health care providers who refuse, for moral or religious reasons, to participate in activities related to abortion, assisted suicide, euthanasia and unethical research that willfully destroys human life. Wisconsin Right to Life believes that it is unconscionable to force health care providers to engage in these activities. **Assembly Bill 67 does not prohibit any of these activities.** Rather, it provides doctors, nurses, medical students, lab technicians and others who object to the taking of human life in these ways to be protected from employment discrimination and from professional or civil penalties.

Wisconsin Right to Life urges you to support AB 67 and to reject all amendments.

Thank you.

Dear Representative and Senator:

MAY 28 2003

MAY 28 2003

We strongly oppose the attacks on birth control and access to basic reproductive health care services taking place in the Legislature. Assembly Bill 67 (being voted on Thursday, May 29) would allow ANY health care professional the right to refuse to administer ANY needed health care if they are morally opposed to it. (Pregnant women with epilepsy could be denied anti-seizure medication. Prenatal care and tests, such as amniocentesis, can be denied to pregnant women.) We also strongly oppose the repeal of, and the limiting of, the Family Planning Waiver. Not only is the Waiver cost effective (attracting \$38 million in federal funds), it also has bi-partisan support, and, more importantly, provides health care services to low-income women who previously could not access them! Support the Family Planning Waiver, and oppose bills that aim to reduce access to birth control and reproductive health services.

Sincerely,

JUN 03 2003

Dear Representative and Senator:

We strongly oppose the attacks on birth control and access to basic reproductive health care services taking place in the Legislature. Assembly Bill 67 (being voted on Thursday, May 29) would allow ANY health care professional the right to refuse to administer ANY needed health care if they are morally opposed to it. (Pregnant women with epilepsy could be denied anti-seizure medication. Prenatal care and tests, such as amniocentesis, can be denied to pregnant women.) We also strongly oppose the repeal of, and the limiting of, the Family Planning Waiver. Not only is the Waiver cost effective (attracting \$38 million in federal funds), it also has bi-partisan support, and, more importantly, provides health care services to low-income women who previously could not access them! Support the Family Planning Waiver, and oppose bills that aim to reduce access to birth control and reproductive health services.

Sincerely,
