Support Women's Health

Oppose Attacks on the Family Planning Waiver

Dear Legislator:

As a constituent, I urge you to oppose AB 634/SB 308 and AB 383/SB 186, which will exclude young women from the important Family Planning Waiver program. This Medicaid program provides low-income women ages 15-44 with access to preventative health care services such as cancer screens, annual and breast exams, sexually transmitted disease testing and treatment, and access to birth control.

The federal government pays 90% of the costs of the program, estimated to save Wisconsin taxpayers \$15 million dollars over the five-year program and will save millions of dollars in Medicaid costs associated with unintended pregnancies. These bills would not only increase costly teen pregnancies, they threaten the continuation of the entire program, jeopardizing health care services that over 50,000 Wisconsin women rely upon.

As Wisconsin citizens struggle to find affordable health care, programs like the Family Planning Waiver should be supported rather than attacked. This is a very important issue to me.

Please stand up for women's health.

Vote against AB 634/SB 308 and AB 383/SB 186.

Sincerely, Rhannon Buetow

As a constituent, I urge you to oppose AB 634/SB 308 and AB 383/SB 186, which will exclude young women from the important Family Planning Waiver program. This Medicaid program provides low-income women ages 15-44 with access to preventative health care services such as cancer screens, annual and breast exams, sexually transmitted disease testing and treatment, and access to birth control.

The federal government pays 90% of the costs of the program, estimated to save Wisconsin taxpayers \$15 million dollars over the five-year program and will save millions of dollars in Medicaid costs associated with unintended pregnancies. These bills would not only increase costly teen pregnancies, they threaten the continuation of the entire program, jeopardizing health care services that over 50,000 Wisconsin women rely upon.

As Wisconsin citizens struggle to find affordable health care, programs like the Family Planning Waiver should be supported rather than attacked. This is a very important issue to me.

Please stand up for women's health.

Vote against AB 634/SB 308 and AB 383/SB 186.

Sincerely, *Christy Hatten*
