**Testimony of Paul E. Sicula
on behalf of the
Wisconsin Academy of Trial Lawyers
before the
Assembly Judiciary Committee
and
Senate Judiciary, Corrections & Privacy Committee
on
2003 Assembly Bill 456 and 2003 Senate Bill 231
August 21, 2003**

Good morning, Representative Gundrum and Senator Zien and members of the Committee. My name is Paul E. Sicula. I am the legislative representative of the Wisconsin Academy of Trial Lawyers (WATL). On behalf of WATL, I thank you for the opportunity to appear today to testify against Assembly Bill 456 and Senate Bill 231.

WATL, established as a voluntary trial bar, is a non-profit corporation with approximately 1,000 members located throughout the state. The objectives and goals of WATL are the preservation of the civil jury trial system, the improvement of the administration of justice, the provision of facts and information for legislative action, and the training of lawyers in all fields and phases of advocacy.

The Wisconsin Academy of Trial Lawyers is opposed to AB 456 and SB 231, which changes the interest rate on judgments and settlement offers from the current 12 percent rate to a rate of 2 percent plus the 6-month Treasury Bill rate.

The interest rate on judgments and settlement offers should serve two purposes. First, it should be set at such a rate that the prevailing party (either an injured plaintiff or corporation trying to collect a debt) will receive a reasonable return on the money owed by the debtor or defendant. Secondly, it should be set at such a rate so as to discourage frivolous appeals of legitimate verdicts and legitimate attempts to collect debts by businesses. If the rate is not high enough and the defendant/debtor can reap a greater return on its money through other investments, there is a great monetary incentive to appeal the case or drag out the settlement process, even if there is little chance that the judgment will be overturned or modified.

The 6-month Treasury Bill rate, as of August 14, 2003 is 1.053 percent, which means the judgment rate under AB 456/SB231 would be 4 percent. A rate so low it serves to penalize successful claimants while rewarding defendants and debtors. The current 12 percent interest judgment rate may strike one as high, however, consider that interest rates consumers pay on credit cards is usually well over 12 percent, most are between 14 and 18 percent. No attempt has been made to lower credit card interest rates.

The interest rate on judgments and settlements wasn't designed to penalize defendants, but it should reflect the value of money, especially the value of investment dollars. The 6-month Treasury Bill is one of the lowest interest rates available in the financial market and certainly doesn't reflect how money is invested.

WATL has also surveyed post-judgment interest rates in other states and 32 states have fixed interest rates, with the majority in the 10 to 12 percent range. Wisconsin rates are not out of line with other jurisdictions.

We urge the committees not to pass AB 456 and SB 231.
