Joyce: Sorry for the delay. I wanted to talk to our legislative staff people before responding. At our meeting with Rep. Albers, we did discuss the need for DNR to pay for its share of the maintenance costs for a settlement pond and using the revenue from the new electric sites at Mirror Lake would help pay part of that cost.

One issue I think we discussed that seems to be missing is the cost of the electricity which DNR will have to pay using the revenue from the camper. The cost of the electricity will be about \$2 and the charge is \$5.

**We would prefer that the bill dedicate the profit from the electrical sites so that we could pay for the electricity.**

Thank you for the opportunity to respond.

Bill,

Representative Albers asked me to forward the amendment she had drafted for AB 150. She has not looked at it so it could require a change but at this point this is what we have.

If after reviewing you have any comments you are willing to share the Representative would be appreciative.
