1 AN ACT *to renumber and amend* 59.69 (3) (b); *to amend* 59.69 (1) and 59.69  
2 (3) (e); and *to create* 59.69 (3) (b) 1. to 4. and 60.23 (32) of the statutes; **relating**  
3 **to:** expanding town authority to create an official map and the status of an  
4 official town map.

***Analysis by the Legislative Reference Bureau***

Under current law, a county board may engage in zoning and land use planning by creating a county planning agency or by designating a previously constituted county committee or commission as the county planning agency. If a county board creates or designates such an agency, the agency is required to direct the preparation of a county development plan for the physical development of the towns within the county and for the cities and villages within the county whose governing bodies agree to have their areas included in the county plan.

Current law requires that the county development plan include the master plan and official map of a city or village in the county, and that a city or village master plan and official map control in the city's or village's extraterritorial zoning jurisdiction over a county development plan that affects that same area. A city's or village's extraterritorial zoning jurisdiction consists of unincorporated areas (town or county territory) within three miles of the corporate limits of a first, second, or third class city or within one and a half miles of a fourth class city or a village.

Current law allows a town to adopt an official map under certain situations if the town is located in a county that has not enacted a county zoning ordinance.

**ASSEMBLY BILL 340**

This bill authorizes a town to adopt an official map at any time. The bill requires that a county development plan include both the official map of any town in the county that has adopted a comprehensive plan and the comprehensive plan, which is defined under current law as a plan that must contain planning elements including the following: housing; transportation; utilities and community facilities; agricultural, natural, and cultural resources; economic development; and land use. Also under the bill, a city's or village's master plan and official map control in the city's or village's extraterritorial zoning jurisdiction only if an official town map is not part of the county development plan.

For further information see the *local* fiscal estimate, which will be printed as an appendix to this bill.
