### ***Analysis by the Legislative Reference Bureau***

Under current law, a school district may enter into a five-year, renewable student achievement guarantee (SAGE) contract with the Department of Public Instruction (DPI) to reduce class size to 15 pupils in grades kindergarten to three in exchange for receiving state aid equal to \$2,000 for each low-income pupil enrolled in grades eligible for SAGE funding. Current law directs DPI to arrange for an evaluation of SAGE and allocates \$250,000 for that purpose.

Beginning in the 2006–07 fiscal year, this bill allocates \$125,000 annually for the evaluation. The bill also requires that the evaluation include a longitudinal study that documents and records the continuing academic achievement of identified individual pupils who are enrolled in schools covered by SAGE contracts and the academic achievement of identified individual pupils who are not enrolled in such schools. The person conducting the study must identify at least 500 individual pupils enrolled in grades kindergarten to three in each category and collect data that indicates the performance of the pupils on standardized tests in grades three, grade four, grade eight, and grade ten. The statewide assessments must be used for this purpose. The person must also collect data on the pupils who leave the study, including whether the pupils have transferred to a different school or school district or are no longer attending school, and on the pupils who graduate from high school.

**ASSEMBLY BILL 937**

The person performing the evaluation annually must report the most recent data to DPI and to appropriate committees of the legislature. The report must include a list of those schools that have terminated SAGE contracts since the previous report and delineate the reasons for each termination.
