1 AN ACT *to amend* 40.51 (1), 111.70 (1) (dm), 632.755 (1g) (a) and 632.755 (1g) (b);  
 2 and *to create* 13.94 (1s) (c) 5., 20.855 (8m), 25.17 (1) (gd), 25.775, 71.83 (1) (ce),  
 3 subchapter XVI of chapter 71 [precedes 71.98], 111.91 (2) (pm), 149.12 (2) (g) 7.  
 4 and chapter 260 of the statutes; **relating to:** creating the Private Health  
 5 Insurance Purchasing Corporation of Wisconsin, establishing a health  
 6 insurance purchasing arrangement through the use of private accounts for all  
 7 state residents, adopting federal law as it relates to health savings accounts for  
 8 state income and franchise tax purposes, making appropriations, and  
 9 providing a penalty.

*Analysis by the Legislative Reference Bureau*

*Health insurance purchasing arrangement; corporation*

This bill establishes a private health insurance purchasing arrangement (PHIPA) to provide health insurance coverage for state residents, and creates a private, nonstock corporation, called the Private Health Insurance Purchasing Corporation of Wisconsin (corporation), to facilitate and administer PHIPA. The eight members of the corporation's board of directors are designated by the governor and various business organizations and labor unions. The corporation's meetings

**BILL**

must be open to the public, and it must keep its records open to inspection by the governor, the secretary of administration, any committee of the legislature, the Legislative Fiscal Bureau, and the Legislative Audit Bureau, which must conduct both a financial audit of the corporation and a performance evaluation audit of PHIPA at least once every two years. The corporation must keep its hiring practices and its procedures for soliciting bids or proposals in writing and open to public inspection, as well as all of its requests for bids or proposals and its analyses of, and final decisions on, bids and proposals received. The corporation must annually report to the governor and the legislature on its activities.

***Eligibility; establishing accounts***

Every eligible resident is eligible for PHIPA. An eligible resident is defined in the bill as an individual who is under 65 years of age; who has been legally domiciled in the state for at least six months or, if under six months old, whose parent or guardian has been legally domiciled in the state for at least six months; who maintains a substantial presence in the state; and who is not an inmate of a penal facility, not a resident of an institution for the mentally ill or developmentally disabled, not eligible for health care coverage from the federal government, and not eligible for Medical Assistance or Badger Care unless a waiver from the federal secretary of health and human services is granted that allows individuals who are eligible for Medical Assistance or Badger Care to be covered under PHIPA.

Beginning in 2008, the corporation must establish for every eligible resident, except for one who objects for religious reasons, a private health insurance purchasing account (account). The account of every eligible resident who is at least 18 years of age will include a health savings account (HSA).

***Insurers; health care plans***

The corporation must solicit bids from, and contract with, insurers to offer health care plans under PHIPA. There must be at least two health care plans offered by at least two insurers in each county of the state. The corporation must rank, on a countywide basis, each of the health care plans offered, assign each plan to one of three tiers, and determine the premium for each. Plans that the corporation determines provide high quality care at a low risk-adjusted cost will be assigned to Tier 1; plans that the corporation determines provide care at a higher risk-adjusted cost will be assigned to Tier 2; and plans that the corporation determines provide care at the highest risk-adjusted cost will be assigned to Tier 3. Every year there will be an open enrollment period during which each eligible resident may select a health care plan from among those offered. An eligible resident who does not select a plan will be randomly assigned to a Tier 1 plan.

***Funding and uses of accounts***

Although the bill does not provide a funding source or mechanism, the accounts and HSAs are to be funded beginning in 2009, which is also when coverage under PHIPA begins. The amount that is to be credited to each eligible resident's account is the full premium amount for coverage under a Tier 1 plan in the county in which the eligible resident resides, actuarially adjusted for the eligible resident's age, sex, and other appropriate risk factors. The corporation pays this amount to the health care plan selected by the eligible resident. Only if an eligible resident has selected

**BILL**

a Tier 2 or Tier 3 plan must he or she pay any additional, out-of-pocket amount for the premium. The bill provides that the amount credited to an eligible resident's HSA will be \$500 in 2009, and adjusted to reflect changes in the U.S. consumer price index for years after that. The amount credited to an HSA, however, may be increased or decreased for various reasons, such as whether the eligible resident follows a healthy lifestyle protocol and whether the corporation estimates that revenues will exceed expenses or expenses will exceed revenues in a given year. Federal law requires that amounts credited to an HSA must be used to pay for medical care.

***Benefits; cost-sharing; preexisting condition exclusion***

Every health care plan offered will provide the same benefits and, except for premiums, will require the same cost-sharing. Benefits under PHIPA include medical and hospital care coverage and related health care services, prescription drug coverage, and limited dental care. Cost-sharing, including deductibles, coinsurance, and copayments, will not apply to certain types of care, including emergency care, prenatal care, medically indicated immunizations for children, and other specified types of preventive care. However, benefits may be reduced, under a procedure outlined in the bill, if the corporation determines that expenses will exceed revenues for a given year or years.

Except for those services to which cost-sharing does not apply, each eligible resident who is at least 18 years old on January 1 must pay a deductible of \$1,200 in that year, and each eligible resident who is less than 18 years old on January 1 must pay a deductible of \$100 in that year. After the deductible has been satisfied, an eligible resident must pay coinsurance of between 10 and 20 percent, as determined by the corporation, for prescription drugs and covered services, except for those services to which cost-sharing does not apply. Prescription drugs are subject to additional coinsurance or copayments, as determined by the corporation. The additional coinsurance or copayments must be higher for prescription drugs that are not on a preferred list determined by the corporation.

Notwithstanding the required deductible, coinsurance, and copayment amounts, an eligible resident who is at least 18 years old on January 1 may not be required to pay more than \$2,000 per year in total cost-sharing; an eligible resident who is less than 18 years old on January 1 may not be required to pay more than \$500 per year in total cost-sharing; and a family of two or more eligible residents may not be required to pay more than \$3,000 per year in total cost-sharing. In addition, the corporation must reduce one or more of the cost-sharing amounts for low-income eligible residents, and the deductible and maximum cost-sharing amounts are to be adjusted annually to reflect changes in the U.S. consumer price index.

There is a coverage exclusion for any preexisting condition of an eligible resident who, at any time during the 18 months before becoming an eligible resident, resided outside of Wisconsin and did not have health insurance coverage substantially similar to the coverage under PHIPA. However, the preexisting condition exclusion may not extend beyond the date on which the eligible resident has been continuously covered under PHIPA for a total of 18 months.

**BILL*****Health care advisory committee***

The corporation is required to establish a health care advisory committee to advise it on specified health-related issues. The corporation must consult with the health care advisory committee and other experts on various health-related issues, such as creating incentives for eligible residents to adopt healthier lifestyles and increasing transparency of health care cost and quality information, and must adopt policies that further these goals.

***Waiver of federal requirements; proposed legislation***

Under the bill, the corporation and the Department of Health and Family Services (DHFS) must develop a plan for providing coverage under PHIPA for individuals who would be eligible residents except that they are eligible for Badger Care or for Medical Assistance under what DHFS determines is the low-income families category. DHFS must submit the plan to the legislature, along with its recommendations on the desirability of requesting waivers that would allow implementation of the plan and the use of federal financial participation to fund health care coverage for those individuals under PHIPA. If DHFS requests waivers upon the authorization of the legislature, and if the waivers are granted, DHFS must submit proposed legislation implementing the provisions approved under the waivers. In addition, to facilitate the provision of coverage under PHIPA for individuals who are eligible for Badger Care or for Medical Assistance under what DHFS determines is the low-income families category, DHFS and the Legislative Fiscal Bureau must submit proposed legislation that separates the Medical Assistance provisions of the statutes, including related appropriations, into two eligibility categories, one for low-income families and one for elderly and disabled persons.

***Adoption of federal law for health savings accounts***

The bill adopts, for state income and franchise tax purposes, section 1201 of Public Law 108-173 as it relates to claiming a deduction for an amount that a person pays into a health savings account.

This bill will be referred to the Joint Survey Committee on Tax Exemptions for a detailed analysis, which will be printed as an appendix to this bill.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

2 determined by the board. Subject to sub. (2) and s. 260.20 (3), the corporation shall  
3 pay the amount credited under this paragraph to the health care plan selected by the

17 12-month period ending on December 31 of the preceding year.

19 corporation may deposit into each health savings account an amount in addition to  
20 the amount deposited under subd. 2.

21 4. In addition to amounts deposited under subds. 2. and 3., the corporation may

23 follows a healthy lifestyle protocol certified by the corporation under s. 260.40 (2) (a),  
24 an amount determined by the corporation to be equal to the average reduction in  
25 health care costs per eligible resident who adopts a healthy lifestyle protocol.

**BILL**

1           5. Notwithstanding subds. 2., 3., and 4., the total amount deposited in an  
2 eligible resident's health savings account may not exceed the maximum amount  
3 allowed under federal law.

4           **(2) ADDITIONAL PAYMENT FOR DISPROPORTIONATE RISK.** The corporation may retain  
5 a percentage of the amounts credited under sub. (1) (a) to pay to health care plans  
6 that have incurred disproportionate risk not fully compensated for by the actuarial  
7 adjustment in the amount credited to each account under sub. (1) (a). Any payment  
8 to a health care plan under this subsection shall reflect the disproportionate risk  
9 incurred by the health care plan.

10           **260.15 Health care plans. (1) PARTICIPATION OF INSURERS.** (a) Subject to par.  
11 (c), the corporation shall solicit bids from, and enter into contracts with, insurers for

14 eligible to submit a bid.

15           (b) In determining which insurers qualify to offer coverage, the corporation  
16 shall use financial, coverage, and disclosure standards that are comparable to those  
17 that the department of employee trust funds has used in qualifying insurers for  
18 offering coverage under the state employee health plan under s. 40.51 (6).

19           (c) The corporation shall ensure that in each county at least 2 health care plans  
20 are offered by at least 2 different insurers.

21           **(2) TIER ASSIGNMENT AND PREMIUM DETERMINATION.** (a) The corporation shall  
22 rank the health care plans offered in each county and assign each health care plan  
23 to one of 3 tiers, on a countywide basis, based on the health care plan's risk-adjusted  
24 cost and quality. The corporation shall assign to "Tier 1" health care plans that it  
25 determines provide high quality care at a low risk-adjusted cost, assign to "Tier 2"

**BILL****SECTION 11**

1 health care plans that it determines provide care at a higher risk-adjusted cost, and  
2 assign to “Tier 3” health care plans that it determines provide care at the highest  
3 risk-adjusted cost.

4 (b) The corporation shall determine the monthly premium amount for each  
5 health care plan, including the out-of-pocket monthly premium amounts that  
6 eligible residents must pay to enroll in Tier 2 health care plans and Tier 3 health care  
7 plans. The out-of-pocket monthly premium amounts shall be based on the actual  
8 differences in risk-adjusted cost between Tier 1 and Tier 2 health care plans, and  
9 between Tier 1 and Tier 3 health care plans.

10 (3) **PLAN SELECTION.** Beginning in 2008, the corporation shall offer an annual  
11 open enrollment period during which each eligible resident may select a health care  
12 plan from among those offered. Coverage under the health care plan that an eligible  
13 resident selects during an annual open enrollment period shall be effective on the  
14 following January 1. An eligible resident who does not select a health care plan will  
15 be randomly assigned to a Tier 1 health care plan. An eligible resident who selects  
16 a Tier 2 or Tier 3 health care plan but who fails, as defined by the corporation, to pay  
17 the out-of-pocket monthly premium amount will be randomly assigned to a Tier 1  
18 health care plan.

19 **260.20 Benefits.** (1) **GENERALLY.** Coverage under this chapter shall begin on  
20 January 1, 2009, and shall include medical and hospital care coverage and related  
21 health care services as determined by the corporation, prescription drug coverage,  
22 and limited dental care coverage, as provided in sub. (4).

23 (2) **BENEFITS WITHOUT CERTAIN COST SHARING.** Deductibles, coinsurance, and  
24 copayments shall not apply to coverage of any of the following health care services,  
25 as defined by the corporation:

**BILL**

- 8           (h) Annual medical examinations for older men.
- 9           (i) Medically indicated colonoscopies.
- 10          (j) The limited dental care specified in sub. (4).
- 11          (k) Other preventive services or procedures, as determined by the corporation,
- 12 for which there is scientific evidence that exemption from cost sharing is likely to
- 13 reduce health care costs or avoid health risks.
- 14          **(3) PHARMACY BENEFIT.** (a) Except as provided in par. (b), the corporation shall
- 15 assume the risk for, and pay for, prescription drugs provided to eligible residents.
- 16 For this purpose, the corporation shall retain the portion of the amount credited
- 17 under s. 260.10 (1) (a) that is actuarially allocated for prescription drug coverage.
- 18          (b) If the corporation determines that the method of providing prescription
- 19 drug coverage under par. (a) is not cost-effective, the corporation may require the
- 20 health care plans to provide prescription drug coverage to eligible residents and shall
- 21 pay the portion of the amount credited under s. 260.10 (1) (a) that is actuarially
- 22 allocated for prescription drug coverage to the eligible residents' health care plans.
- 23          **(4) DENTAL BENEFIT.** Every health care plan shall provide coverage of dental
- 24 examinations and the application of varnishes and sealants, as determined by the

1 corporation, for eligible residents who are at least 2 years of age but not more than  
2 16 years of age.

3 (5) BENEFIT AND HEALTH SAVINGS ACCOUNT DEPOSIT REDUCTIONS. (a) If the

16 4. The revenue increase, health savings account deposit reduction, or benefit

Fiscal Estimate Narratives

DHFS 5/30/2006

LRB Number	05-2922/3	Introduction Number	AB-1140	Estimate Type	Original
<b>Description</b> Creating the Private Health Insurance Purchasing Corporation of Wisconsin, establishing a health insurance purchasing arrangement through the use of private accounts for all state residents, adopting federal law as it relates to health savings accounts for state income and franchise tax purposes, making appropriations, and providing a penalty					

**Assumptions Used in Arriving at Fiscal Estimate**

This bill creates a private health insurance purchasing arrangement (PHIPA) to provide health insurance coverage to state residents. It also creates the Private Health Insurance Purchasing Corporation of Wisconsin to administer the PHIPA. Every state resident is eligible for PHIPA, if he or she meets the following criteria. Eligible residents are those under 65 years of age who have lived in the state for at least six months. Those under six months old must have a parent or guardian who has been domiciled in the state for at least six months. Furthermore, eligible residents must maintain a substantial presence in the state, cannot be inmates of a penal facility, cannot be residents of an institution for the mentally ill or developmentally disabled, cannot be eligible for Medicaid or BadgerCare unless a waiver from the U.S. HHS Secretary is granted. Under the bill, DHFS along with the corporation must develop a method of providing coverage under PHIPA to those who would be eligible if they were not also eligible for Medicaid or BadgerCare. This plan must be submitted to the Legislature and should include recommendations on the feasibility of requesting waivers of federal law.

Beginning in 2008, the corporation must establish a private health insurance account for every eligible resident. Eligible residents over 18 will also get a health savings account (HSA). The HSAs provided to all eligibles over 18 would receive \$500 from the state annually beginning in 2009 with adjustments for inflation. The bill adopts federal Public Law 108-173 for state income tax purposes as it relates to HSAs. The Department of Revenue estimated the reduction in state tax revenues associated with the deduction for HSAs allowed under this bill. This estimate only takes into account the costs to the state of providing each eligible individual with \$500 for their HSA.

The bill does not provide a funding source. This estimate assumes all costs associated with the proposal, except those offset by cost-sharing, will be funded by GPR.

Under the plan, eligible residents who enroll in a Tier 1 plan will pay no premiums. Only those who select Tier 2 or Tier 3 plans must pay premiums. Each eligible resident over 18 must pay a \$1,200 deductible. Those under 18 pay a \$100 deductible. After the deductible has been satisfied, an eligible resident must pay coinsurance of between 10% and 20%, as determined by the corporation, for prescription drugs and covered services. However, an eligible resident over 18 cannot be required to pay more than \$2,000 annually in cost-sharing. For those under 18, the maximum cost-sharing amount is \$500 annually. For families, the maximum cost-sharing amount is \$3,000 annually.

For purposes of this estimate, we assume that the costs of the proposed health plan would be comparable to those of the state employee health insurance plan. The benefit package associated with the proposed PHIPA is not defined in the bill. If the PHIPA benefit package offers fewer services than those offered to state employees, the costs associated with this bill would be lower. We estimate the number of participants that would take advantage of the proposed PHIPA at 3,936,000 state residents, excluding those over 65, those on Medicaid and BadgerCare, and roughly 29,000 federal workers in the state.

Since the bill would exclude residents who are part of a collective bargaining agreement until the agreements expire, there would be a phase-in period before the total projected enrollment of 3,936,000 residents would be achieved. At full implementation, it is projected that annual benefit costs would total \$24,489,583,000 offset by cost sharing of \$3,424,762,000. The HSAs would cost a projected \$1,457,351,000 annually. Administrative costs are estimated at \$1,180,836,000 based on a blend of the cost per participant for HIRSP and Medicaid. Thus, the net annual cost would be \$23,703,007,000.

Since the new health plan would include both state and local government employees, state and local health

insurance costs would decrease. This would not be a net reduction for state government, however, since the private corporation would need funding to support the costs of the new health plan. The bill does not specify the funding mechanism, but it might be speculated that the health care savings at state agencies would be used to fund part of the PHIPA costs. The costs of the PHIPA would, however, greatly exceed the current costs of health care coverage for state employees, which would only represent about 7% of the projected costs of the new health plan.
