2006 Resolution Draft

Whereas, Taiwan is America's 10<sup>th</sup> largest export market and Wisconsin's 16<sup>th</sup> largest foreign market; and

Whereas, Taiwan has established a sister-state relationship with Wisconsin, and endeavors to continue the exchange of ideas and programs and to enhance cooperation in all fields; and

Whereas, Taiwan values the principles of democracy, religious freedom, humanitarianism, and market economics, which are hallmarks of the state of Wisconsin and of the United States of America; and

Whereas, through persistence and pragmatism, Taiwan has become one of the most prosperous, democratic countries in the world; and

Whereas, the principle of "universal participation" is the core of the World Health Organization's constitutional mandate to advance the health of all people, including the 23 million people and more than 400,000 foreign nationals in Taiwan; and,

Whereas, the need for global cooperation in preventing avian and human influenza pandemics is becoming ever urgent and Taiwan has the unique experience of successfully fighting the deadly SARS virus in 2003, the ability to produce a generic version of Tamiflu, and is willing to contribute more fully to international health cooperation; now, therefore be it

Resolved by the Assembly, That the members of the Wisconsin Assembly support Taiwan's efforts to obtain observer status and Taiwan's full participation in the World Health Organization, which will allow it to better serve the medical and health needs of its people and immigrant workers that reside in Taiwan and will facilitate Taiwan to contribute its experience and technologies to international health cooperation; and be it further

Resolved, That the Chief Clerk of the Assembly shall provide a copy of this resolution to Dr. Jong-wook Lee, Director-General of the WHO and the Taipei Economic and Cultural Office in Chicago, Illinois.
