Assumptions Used in Arriving at Fiscal Estimate

This legislation will require modifications to the Statewide Voter Registration System (SVRS). The software application developer has not provided the State Elections Board staff with an estimate of the cost for this change at the time of the preparation of this fiscal estimate. We will amend the estimate once that figure has been received.

The State Elections Board will have to modify information and training materials as well as train local election officials, including poll workers, on this change. The estimated cost of modifying the informational and training materials is \$10,000. If a separate set of training sessions is required, the estimated cost of the training activities is \$25,000.

Local election officials will have to print additional lists to be used at the polling place on election day.

Long-Range Fiscal Implications
