

DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU

LRBa1269/1dn
RLR:jld:rs

November 7, 2005

Kevin Moore:

Current law provides that the supplemental payments based on county and municipal operating deficits be paid to county and municipal "facilities." Facilities include nursing homes and community-based residential facilities (CBRFs). The amendment provides for any unbudgeted supplement to be paid to nursing homes only. It is my understanding that there currently are no county or municipal CBRFs, so applying the amendment to nursing homes only will not negatively impact any CBRFs.

Please contact me with any questions or changes.
