Grant, Peter

From: Hub, Brad
Sent: Monday, March 28, 2005 3:21 PM
To: Grant, Peter
Subject: FW: Meningitis Information Legislation

Hello Brad!

We appreciate Rep. Kriebich's willingness to draft this legislation. Below is the model legislation from North Carolina, which we'd like to have drafted for Wisconsin.

While this language could serve as the "base", there are changes we'd like to make to it.

- 1.) The information would be provided to children beginning in Grade 5 (and annually through grade 12).
- 2.) Delete the reference to "Garrett's Law."
- 3.) Delete the references to "influenza".
- 4.) The new law would be effective for the first school year after being signed into law.
- 5.) If this can be met thru electronic delivery it would be satisfactory.

Here is the base language:

GENERAL ASSEMBLY OF NORTH CAROLINA
SESSION 2003
SENATE BILL 444
RATIFIED BILL

AN ACT TO ensure that educational materials are provided so that schools provide information to parents and guardians concerning meningococcal meningitis and influenza and their vaccines.

The General Assembly of North Carolina enacts:

SECTION 1. This act shall be known as "Garrett's Law".

SECTION 2. G.S. 115C47 is amended by adding a new subdivision to read:

"(44) To Ensure that Schools Provide Information Concerning Meningococcal Meningitis and Influenza and Their Vaccines. - Local boards of education shall ensure that schools provide parents and guardians with information about meningococcal meningitis and influenza and their vaccines at the beginning of every school year. This information shall include the causes, symptoms, and how meningococcal meningitis and influenza are spread and the places where parents and guardians may obtain additional information and vaccinations for their children."

SECTION 3. G.S. 115C238.29F(a) reads as rewritten:

"(a) Health and Safety Standards. - A charter school shall meet the same health and safety requirements required of a local school administrative unit. The Department of Public Instruction shall ensure that charter schools provide parents and guardians with information about meningococcal meningitis and influenza and their vaccines at the beginning of every school year. This information shall include the causes, symptoms, and how meningococcal meningitis and influenza are spread and the places where parents and guardians may obtain additional information and vaccinations for their children."

SECTION 4. G.S. 115C548 reads as rewritten:

"§ 115C548. Attendance; health and safety regulations.

Each private church school or school of religious charter shall make, and maintain annual attendance and disease immunization records for each pupil enrolled and regularly attending classes. Attendance by a child at any school to which this Part relates and which complies with this Part shall satisfy the requirements of compulsory school

attendance: Provided, however, that such attendance so long as the school operates on a regular schedule, excluding reasonable holidays and vacations, during at least nine calendar months of the year. Each school shall be subject to reasonable fire, health and safety inspections by State, county and municipal authorities as required by law. The Division of Nonpublic Education, Department of Administration, shall ensure that materials are provided to these schools so that they can provide parents and guardians with information about meningococcal meningitis and influenza and their vaccines at the beginning of every school year. This information may be provided electronically or on the Division's Web page. This information shall include the causes, symptoms, and how meningococcal meningitis and influenza are spread and the places where parents and guardians may obtain additional information and vaccinations for their children."

SECTION 5. G.S. 115C556 reads as rewritten:

"§ 115C556. Attendance; health and safety regulations.

Each qualified nonpublic school shall make, and maintain annual attendance and disease immunization records for each pupil enrolled and regularly attending classes. Attendance by a child at any school to which this Part relates and which complies with this Part shall satisfy the requirements of compulsory school attendance: Provided, however, that such attendance so long as the school operates on a regular schedule, excluding reasonable holidays and vacations, during at least nine calendar months of the year. Each school shall be subject to reasonable fire, health and safety inspections by State, county and municipal authorities as required by law.

The Division of Nonpublic Education, Department of Administration, shall ensure that materials are provided to each qualified nonpublic school so that the school can provide parents and guardians with information about meningococcal meningitis and influenza and their vaccines at the beginning of every school year. This information may be provided electronically or on the Division's Web page. This information shall include the causes, symptoms, and how meningococcal meningitis and influenza are spread and the places where parents and guardians may obtain additional information and vaccinations for their children."

SECTION 6. G.S. 115C565 reads as rewritten:

"§ 115C565. Requirements exclusive.

No school which complies with this Part shall be subject to any other provision of law relating to education except requirements of law respecting immunization. The Division of Nonpublic Education, Department of Administration, shall provide to home schools information about meningococcal meningitis and influenza and their vaccines. This information may be provided electronically or on the Division's Web page. The information shall include the causes, symptoms, and how meningococcal meningitis and influenza are spread and the places where parents and guardians may obtain additional information and vaccinations for their children."

SECTION 7. The Division of Public Health, Department of Health and Human Services, shall make available sample educational materials that can be provided to parents and guardians. The Division shall provide these materials to (i) local school administrative units for public schools other than charter schools, (ii) the Department of Public Instruction for charter schools, and (iii) the Division of Nonpublic Education, Department of Administration, for nonpublic schools including home schools. These materials may be provided electronically.

SECTION 8. This act becomes effective July 1, 2004, beginning with the 20042005 school year.

In the General Assembly read three times and ratified this the 8th day of July, 2004.

Beverly E. Perdue
President of the Senate

Richard T. Morgan
Speaker of the House of Representatives

Michael F. Easley
Governor

Approved _____ .m. this _____ day of _____, 2004

To: Hub, Brad
Subject: Meningitis Bill...second draft revisions
Importance: High

Brad,

Here are my revisions to 2nd draft....The goal is to give options how the information should be available from the Department of Public Instruction, but not give Internet option for schools to only post info on web. The info from schools to parents should be disseminated hard copy, not simply by posting on a site (which nobody will likely look at).

Under Analysis by the Legislative Reference Bureau:

This bill directs the Department of Public Instruction to make available, either by posting it on Internet site or through hard copy distribution, information.....

Under 118.07 (3):

Line 1: The department must make available, either by posting it on Internet site or through hard copy, information about.....

Line 6: private school and each charter school shall distribute to parents

Line 8/9: Eliminate sentence

Thank you !
