### *Analysis by the Legislative Reference Bureau*

Under current law, a racetrack owner or race manager may obtain an intertrack wagering license to conduct pari-mutuel wagering at a racetrack on races that take place at and are simulcast from another racetrack. Prior to issuing a license for intertrack wagering, the Department of Administration (DOA) must make a determination that the following conditions are satisfied: 1) wagering on off-track races will be conducted as an adjunct to, and not in a manner to supplant, wagering on live on-track races, and 2) wagering on off-track races will not be the primary source of wagering revenue for the racetrack. Additionally, if DOA determines at any time that an intertrack wagering licensee is violating either of these conditions, DOA must revoke the license. The 2001 statutes further provided that DOA could not permit an intertrack wagering licensee to receive simulcast races if the licensee violated either of the conditions. The 2003 biennial budget act suspended until January 1, 2007, the provision that prohibits DOA from permitting a licensee to receive simulcast races if the conditions are not met, but the act did not affect the licensing provisions related to intertrack wagering.

This bill permanently repeals the conditions on intertrack wagering licenses and receipt of simulcast races that prohibit wagering on off-track races from supplanting wagering on live on-track races and prohibit wagering on off-track races from being the primary source of wagering revenue for a racetrack.
