Fiscal Estimate Narratives

Subject Tribal impact statement for introduced legislator		

Assumptions Used in Arriving at Fiscal Estimate

It is unknown at this time how many bills might be introduced that would require tribal impact statements, therefore there is no data on costs to the agencies to prepare the statements. Until specific bills are presented, it is also unknown how much research might be required and what data might exist or be created upon which to base such impact statements.

If the existing automated fiscal estimate system can be used and modified to also include requests for tribal impact statements, there may be little added costs to administer such statements. If a new system were required, application development costs would occur. The assumption is that the present system would simply add a request for a tribal impact statement to be incorporated into or instead of a fiscal estimate.

Long-Range Fiscal Implications

Unknown.
