

Fiscal Estimate Narratives

DA 3/10/2005

LRB Number 05-2309/1	Introduction Number AB-183	Estimate Type Original
Subject Methamphetamine		

Assumptions Used in Arriving at Fiscal Estimate

While this bill would create a number of new crimes and also increase the penalties for a number of current crimes, it is unlikely that the actual number of cases referred by law enforcement to District Attorneys Offices would be changed. Rather, this bill would primarily provide greater tools to law enforcement, including DAs, to address the growing Methamphetamine problem.

Long-Range Fiscal Implications

The actual impact of this bill, if enacted, should be closely monitored so that any need for additional prosecutorial resources can be determined.
