#### **Assumptions Used in Arriving at Fiscal Estimate**

This bill regulates the sale and redemption of gift cards and gift certificates (gift obligations). It prohibits failing to honor valid gift obligations, selling gift obligations with expiration dates, and charging fees that would reduce a gift obligations value.

The Department addresses consumer complaints mostly through mediation and education, but would now have specific statutory authority to investigate and seek prosecution of businesses engaged in fraudulent gift obligation sales practices.

Currently national statistics show \$5.5 billion in gift obligations go unused annually. One reason for this is expiration dates that could result in a loss of \$11 million for Wisconsin consumers. This new law would prohibit those expiration dates. Based on experience, the Department can further assume that the \$11 million of unused gift obligations due to expiration dates would result in 200 formal written consumer complaints per year. The Department estimates 20 complaints per year will require assignment to investigate staff for detailed investigation. Typically, these investigations will involve multiple jurisdictions. The Department estimates an additional workload of 2000 hours to administer and enforce the law.

#### **Long-Range Fiscal Implications**

Based on these assumptions the Department estimates 1.0 FTE Regulation Compliance Investigator will be necessary for enforcement of this law. Additional funding of \$60,200 annually will be necessary to fund this position.
