Description Requiring that patients be informed of health care facility use charges and that the charges be identified separately on bills		

Assumptions Used in Arriving at Fiscal Estimate

When physicians use a health care facility for a patient's office visit, the health care facility or physician may charge the patient for the use of the facility in addition to the physician's charges.

AB 773 requires a health care facility or physician who uses a health care facility for which a separate charge is made to notify patients that there will be a charge for health care facility use and to identify, on a bill for services, the charges for the use of the facility separately from the charges for the physician.

This bill will not have an fiscal effect on the Department.
