Assumptions Used in Arriving at Fiscal Estimate

The bill requires the Department of Agriculture, Trade and Consumer Protection to include, as part of its 2007–09 biennial budget request, a proposal to provide additional funding for the research and development of anaerobic digestors at farms participating in the Discovery Farms Program under the Wisconsin Agricultural Stewardship Initiative.

The bill does not require immediate expenditures, impose regulatory requirements or provide expenditure or position authority. Under the bill, the department would include a budget request, but the department has not currently determined specific funding sources or amounts for such a request.
