<b>Subject</b> Advance determination of rate-making principles for electric generation construction projects		

**Assumptions Used in Arriving at Fiscal Estimate**

This proposed legislation would allow electric utilities, under certain circumstances, to apply for an order from the Commission that specifies in advance the rate making principles that the Commission will apply in future rate-making proceedings. The procedures for this process would be determined by a rule-making proceeding.

The time involved to develop the rules, and subsequently issue orders when requested, would be absorbed by existing staff and would not have a fiscal effect on the Commission.

**Long-Range Fiscal Implications**
