Sincerely,
SENATOR JOE LEIBHAM
Chair, 2003-04 Senate Committee on Transportation and Information Infrastructure

State of Wisconsin

January 3, 2005

The Honorable, The Senate:

Pursuant to section 13.15 of the Wisconsin Statutes and Senate Rule 5, I do hereby appoint Jeffrey Renk as Assistant Chief Clerk of the Wisconsin Senate, giving him all powers and duties as are derived from and inherent in said position and to perform the duties and functions of the office in the absence of the Senate Chief Clerk.

Sincerely,
ROBERT J. MARCHANT
Senate Chief Clerk

**State of Wisconsin
Elections Board**

December 17, 2004

The Honorable, The Senate:

The State Elections Board Staff has received a number of inquiries concerning the last day on which the legislature may act to ensure that a proposed constitutional amendment can be placed on the ballot for the April 5, 2005 spring election. The legislature must complete action on a proposed constitutional amendment no later than Tuesday, February 22, 2005.

By statute all proposed constitutional amendments and any other measure or question that is to be submitted to a vote of the people shall be filed with the official or agency responsible for preparing the ballots for the election no later than 42 days prior to the election at which the amendment, measure or question will appear on the ballot. S. 8.37 Wis. Stats. Tuesday, February 22, 2005, is 42 days before the April 5, 2005 spring election.

In order for the legislative action to be filed in our office, it is sufficient for the chief clerks to notify our office by e-mail, that the legislature passed the resolution no later than Tuesday, February 22, 2005. It is not necessary that we receive the signed resolution by the close of business on Tuesday, February 22, 2005.

In order to facilitate preparation for the April 2005 spring election, I suggest sponsoring legislators contact the office of the Attorney General to make arrangements for the preparation of the explanatory statement required by S. 10.01(2)(c) Wis. Stats. The explanatory statement is published in the paper by the county clerk immediately before the election. It is also posted at the polling place on election day.

Please make the appropriate arrangements to ensure that this information is communicated to the members of the legislature. If you or any member of the legislature has a question, please contact me at 608-266-8005 or ask to speak to one of our Elections Specialists.

Sincerely,
KEVIN KENNEDY
Executive Director

**State of Wisconsin
 Department of Transportation**

December 30, 2004
 The Honorable, The Senate:
 I am pleased to present to you, for distribution to the Wisconsin Senate, the annual evaluation report on the Pretrial Intoxicated Driver Intervention Grant Program. It is also available on our website
www.dot.wisconsin.gov/library/publications/topic/safety.htm.
 The program, created by section 86.53 Wis. Stats., was established by the legislature in 1997 with the requirement that the Department study its impact and report on its findings.
 The Pretrial Intoxicated Driver Intervention Grant Program is intended for offenders who are arrested for their second or subsequent OWI (Operating While Intoxicated) offense. Offender participation may be voluntary or court order. It is an intervention model designed to get offenders into counseling, treatment and supervision as soon as possible after the arrest. The program is individual to each community.
 As you will see in the report, no community that has begun a program has dropped it. Overall, offenders who successfully completed the program were less likely than non-participants to be re-arrested for subsequent OWI violations. Those who were re-arrested went significantly longer between arrests than non-participants. Currently there are seven counties on a waiting list for funding to begin programs.
 I commend those people who have dedicated themselves to making this innovative program a success. There are no "silver bullets" in eradicating impaired driving, but I feel this effort is a vital piece in the total transportation safety effort.
 Sincerely,
MAJOR DANIEL W. LONSDORF
 Director, Bureau of Transportation Safety

**State of Wisconsin
 Department of Health and Family Services**

December 20, 2004
 The Honorable, The Legislature:
 Section 46.03(26) of the statutes requires the Department of Health and Family Services to report annually on information systems projects under development including the implementation schedule, estimate of costs, and methods of determining changes (if applicable).
 The Department has one group of systems now under development: Public Health Information Network (PHIN), and Health Alert Network (HAN)/National Electronic Disease Surveillance System (NEDSS). The PHIN was designed to rapidly detect, analyze and learn, and respond to public health emergencies.
 Through state-of-the-art Web resources, the Wisconsin PHIN connects all functional units: state and local public health and their partners, emergency responders and managers, laboratories, hospitals and clinics, emergency rooms, law enforcement, and the public. In a secure environment, it will

provide alert messaging, information access and exchange, and integrate on-line public health surveillance systems under the NEDSS initiative. By doing this, it will provide a dynamic, comprehensive, real-time view of the health status of Wisconsin's communities and relay this view to our state and federal partners. This electronic nervous system connects and supports the functions of all the bioterrorism focus areas: Planning and Preparedness, Epidemiology and Surveillance, Laboratory, Public Communications, Education and Training, and the Health Resources and Services Administration hospital initiative.

The PHIN provides advanced information technology resources - developed by the University of Wisconsin Division of Information Technology - for Wisconsin's public health system. These resources support communications, data analysis, and public health response during public health threats, emergencies, and daily operations. Key activities include:

- Communications Technology – assuring high-speed Internet connectivity; routine use of the Web for notification of alerts and other critical communication; creating a directory of public health participants, their roles, and contact information covering all local jurisdictions.
- Emergency Communications – Providing an automated, redundant (e-mail, voicemail, fax, text pager, etc.) communications system for public health emergencies. This is currently operational.
- Protection of Data and Information Systems - for continuity of operations.
- Secure Electronic Exchange of Public Health Information-sharing clinical and laboratory information in standard formats electronically between public health partners and with the NEDSS programs. Electronic messaging of laboratory data is operational with select laboratory partners.
- Support of Emergency Response Management - by providing online emergency response management systems to aid the deployment and support of response teams.
- Information Technology Support and Service - including modern software development practices, user support practices (network, desktop, application), and ongoing monitoring and maintenance of systems

This project is federally funded. The budget for HAN (September 2004-August 2005) is \$1,665,185. The budget for NEDSS (September 2004-June 2005) is \$344,400. The basic infrastructure is built and some of the public health system functionality is operational. Continuing feature development and build-out is anticipated to occur through 2010.

Sincerely,
HELENE NELSON
 Secretary

**State of Wisconsin
 Ice Age Park and Trail Foundation**

December 29, 2004

The Honorable, The Senate:

In 1999 the State Legislature included a \$75,000 annual grant in the state budget to be matched with \$25,000 of private funds for the purpose of establishing, maintaining, and promoting the

Ice Age National and State Scenic Trail. The Ice Age Park and Trail Foundation (IAPTF) has been delighted to be the recipient of that grant since 2000. It is my pleasure to submit our final report for the year 2004 as required by statute s. 23.295.

The Ice Age Park and Trail Foundation is a volunteer and member based organization whose mission is to create, support, and protect the Ice Age Trail – designated a National Scenic Trail in 1980 and State Scenic Trail in 1987. The trail is the only unit of the National Park Service and the only National Scenic Trail that commemorates the effects of continental glaciation in the United States.

Despite its federal and state status, the protection, development and management of the Ice Age Trail is dependent on partnerships. The Trail's primary partners, the National Park Service, Wisconsin Department of Natural Resources and IAPTF, work closely with county governments and other municipalities, and with local volunteers from around the state. In 2004 alone, volunteers provided and "in kind" match of over 87,000 hours spent in support of the Trail. When translated into dollars their contribution equals more than \$1,500,000 annually – really quite extraordinary.

The grant from the DNR has allowed IAPTF to:

- Support the work of volunteers who develop, maintain and promote the Ice Age Trail.
- Build Partnerships for the Trail area with local governmental units and nonprofit organizations
- Promote the protection of a corridor for the Ice Age Trail by providing information about acquiring land, or an interest in land in the corridor.
- Strengthen community support for the Ice Age Trail area by recruiting and training volunteers and by coordinating the activities of interest groups.
- Promote tourism in the Ice Age Trail area.

We genuinely appreciate your continuing support and your partnership. Please telephone me at 608-663-1240 with any questions you may have.

Sincerely,
CHRISTINE THISTED
 Executive Director
