**State of Wisconsin
Legislative Audit Bureau**

April 7, 2005

The Honorable, The Senate:

We have completed an evaluation of the Wisconsin Works (W-2) program, as requested by the Joint Legislative Audit Committee. W-2 is designed to help participants achieve economic self-sufficiency through employment. It is administered at the state level by the Department of Workforce Development (DWD) and at the local level through 52 contracts with public and private agencies. From the program's inception through June 2004, expenditures have totaled \$1.5 billion. In June 2004, there were 15,539 participants, 79.8 percent of whom were in Milwaukee County.

The program's success in helping participants achieve economic self-sufficiency has been mixed. We examined Wisconsin income tax returns and quarterly wage data reported to DWD for 9,958 participants who left W-2 from 1999 through 2002. Approximately 20.0 percent of these former participants earned more than the poverty level in the year after they left the program; the majority likely did not. When tax credits are included, approximately 33.0 percent had incomes above the poverty level.

We identified concerns with DWD's management of the program and its oversight of W-2 agencies. For example, the number of work hours assigned to many participants has declined over time; some participants received payments when they were not eligible to receive them; participants are not consistently screened to determine whether they have potential barriers to employment; and sanctions are not applied consistently statewide. We make a number of recommendations for DWD to improve its management and oversight, and we identify issues the Legislature will need to consider as it debates the future funding and structure of the W-2 program.

We appreciate the courtesy and cooperation extended to us by DWD and the W-2 agencies we contacted during our evaluation. DWD's response follows the appendices.

Sincerely,

JANICE MUELLER

State Auditor

April 4, 2005

The Honorable, The Legislature:

Section 13.48(2)(e) stipulates that the Wisconsin State Building Commission shall report to the Legislature at each regular session the progress on projects authorized in the two preceding and current biennia. This report is submitted in accordance with that provision and covers the period from July 1999 through December 2004. Projects having budgets over \$100,000 are listed in detail. Those of lesser amounts have been grouped for each agency as one item for the biennium in which they were authorized.

In summary, during this five and a half year period, the Building Commission approved projects with a total value of \$1,871,768,474.05. Of that amount, \$1,373,501,878.06 has been spent or encumbered, leaving a balance of \$498,266,595.99 to be used to complete projects in progress. The sources of funds for the projects are either cash or borrowed funds which flow through the Building Trust Fund, the Capital Improvement fund, or agency operating budgets.

Each section of this report is organized by the state agency for whom the facilities are being built. The Wisconsin State Controller's Office and user agencies have provided information presented in this report. Building Commission staff has not attempted to verify the figures that were obtained by user agencies. The staff has merely assembled the material provided by each agency and presents it for your review.
