**State of Wisconsin  
 Legislative Audit Bureau**

May 17, 2006

The Honorable, The Legislature:

As requested by the Public Service Commission (PSC), we have completed a financial audit of the Universal Service Fund, which was established to ensure that all state residents receive essential telecommunications services and have access to advanced telecommunications capabilities. It is funded primarily through assessments on telecommunications providers, which totaled \$28.3 million in fiscal year (FY) 2004–05. Our audit report contains our unqualified opinion on the Universal Service Fund’s financial statements for the fiscal years ending June 30, 2004 and 2005.

The largest program supported by the Universal Service Fund is the Educational Telecommunications Access Program, which is administered by the Department of Administration. This program subsidizes data lines and video links to eligible educational institutions. In FY 2004–05, expenditures for these activities totaled \$16.8 million, or 60.3 percent of the Universal Service Fund’s total expenditures and transfers. In January 2006, the conversion to a new statewide data and video network began for program participants, as well as for the State and other public–sector users. The conversion to the new network is expected to be completed in August 2006.

Eight of the 13 programs supported by the Universal Service Fund are operated by the PSC. The Legislature limited the amount the PSC could assess telecommunications providers for the PSC–operated programs to \$5.0 million in FY 2003–04 and \$6.0 million in FY 2004–05 and thereafter. However, increasing expenditures are now presenting budgetary challenges for these programs. In response, the PSC reduced benefits and deferred decisions about certain payment requests to subsequent fiscal years. Based on expenditure projections, the PSC believes it can limit expenditures to its spending authority during FY 2005–06. However, if the growth in program demand and expenditures continues, the Legislature may be asked to reconsider the statutory limits on the PSC’s annual assessment levels or to eliminate some programs.

We appreciate the courtesy and cooperation extended to us by staff at the PSC; the departments of Administration and Public Instruction; and the Universal Service Fund’s administrator, Wipfli LLP.

Sincerely,  
 JANICE MUELLER  
 State Auditor

The Honorable, The Legislature:

Enclosed is the Department’s annual report for the Community Options Program (COP) and the Home and Community–Based Waivers (COP–W/CIP II), as required by s.46.27(11g) and s. 46.277(5m). The attached report describes the persons served, program expenditures, and services delivered through the COP, COP–Waiver and CIP II programs in calendar year 2004. I am pleased to report that the number of individuals receiving community–based long–term care through COP and all waivers continues to grow, reaching 26,923 individuals in 2004.

The Community Options Program provides services to people who are elderly or who have a physical, developmental or mental disability, and is closely coordinated with all of Wisconsin’s Medicaid Home and Community–Based Waivers. As you know, Wisconsin’s successful Family Care Waiver has built on the learning and success of COP and CIP waivers. Working together, we will expand Family Care to provide comprehensive and individualized long–term care to individuals, helping keep more people healthy and independent in communities.

**State of Wisconsin  
 Investment Board**

May 18, 2006

The Honorable, The Legislature:

Pursuant to s. 25.17 (14r), Wis. Stats., I have attached a revised copy of SWIB’s “Investment Policy, Objectives, and Guidelines,” recently amended by the board of Trustees plus a copy that shows the language added or deleted as a result of the changes. In summary, these amendments:

1. Modify the authority to make investments in private equity. These Investments, primarily leveraged buyouts and venture capital, comprise approximately 2.1% of the assets of the Core Trust Fund. In 2005, the Board decided to concentrate on a smaller number of larger purchases, the Board at that time also contracted with a private equity consultant to review all initial prospective investments and confirm that they meet appropriate standards for a prudent investor. The current amendments increase the authority of the Chief Investment Officer-Private Markets to review and approve all proposed buyout fund investments up to \$300 million. The old guidelines limited the authority to investments of no more than \$200 million. Any proposed buyout investment in excess of \$300 must go to the board for approval. The new amendments also define “follow-on funds” and clarify that the portfolio manager is not required to have the outside consultant review proposed follow-on and secondary fund purchases. In addition, the new guidelines no longer require private equity funds that invest more than 50% of capital in emerging markets to secure prior Board approval. The portfolios still are restricted, however, to make no more than 33% of total commitments outside the U.S. and only 15% of their commitments in emerging markets. The emphasis for private equity portfolios to invest in limited partnerships means less risk and volatility in the portfolios, thus justifying the higher limits. The result is that staff has authority and the flexibility to invest in these funds, without having to await the results of Board approval or consultant review. In the current, very competitive marketplace in which partnerships are often oversubscribed, this will allow staff to secure a position in those partnerships that afford the potential to earn the highest return.
2. Incorporate targeted asset allocations for 2006 for the Core Trust Fund adopted by the Board of Trustees. Each year, the Board reviews how the assets are allocated and adjusts the allocation targets when warranted. It also reviews portfolio benchmarks and adopts changes as necessary. The guidelines have been revised to include the benchmark for the REIT portfolio as the portfolio was initiated in mid-2005.
3. Change the criteria for investing in foreign countries. Investments in emerging market countries have been evaluated using a rating system published by Freedom House, an organization with the stated purpose of promoting democracy. In the latest version of the guidelines, the

evaluation of sovereign debt has been distinguished from stocks and corporate bonds. Sovereign debt is evaluated based upon credit ratings issued by recognized rating agencies of Standard & Poors and Moodys. Sovereign debt rated B3/B- or above is eligible for investment. However, investments in unrated debt or debt rated below B3/B- is subject to approval by the Investment Committee based on an analysis presented by portfolio managers. Investment in emerging market debt is limited by the guidelines to sovereign debt of countries included in the JP Morgan Emerging Markets Global Diversified Bond Index.

Corporate bonds and stock issued by companies domiciled in emerging markets continue to be subject to the Freedom House screen. In addition, the Index of Economic Freedom, a screen based on economic factors, will be used to evaluate investments. Bonds and stocks of companies that are organized in countries rated "Not Free" by Freedom House and "Repressed" by the Index of Economic Freedom are not permitted investments. Investments in countries that fail to pass one of the two screens may be permitted based on an evaluation of risk factors and approval by SWIB's Investment Committee.

4. Reduce the current authority of fixed income portfolios to invest in Rule 144A investments from 40 to 20% of the portfolios market value. Rule 144A of the Federal Securities Act makes it easier for institutional investors to buy and sell unregistered securities, which are private debt investments of public issuers that are not available to non-institutional investors. These bonds are frequently registered as a public bond at a later date. The Board and staff decided that the lower number was sufficient.
5. Include the benchmark and guidelines for the newly created Global Bond Index Fund, which is being managed internally. The benchmark is the same as for the actively managed internal Global Bond Portfolio. However, the guidelines are more restrictive as the index fund is intended to replicate the benchmark and all securities held in the portfolio much come from countries in the benchmark.
6. Make minor changes to the State Investment Fund (SIF) guidelines. The new guidelines clarify the statutory language applicable to SIF's investment authority and that maturity, issuer and credit quality limits are applied at the time of investment.
7. Make minor changes to the other smaller funds regarding investment objectives and permissive investments.
8. Include statutory changes that changed the name of the Fixed Fund to the Core Fund and increased from 15% to 20% the funds that may be actively managed by external managers.
9. Incorporate minor amendments to include statute cites, administrative rules, name changes, and rewording of existing guidelines.

SWIB's "Investment Goals, Strategies and Performance Report" was filed in March and provided a more detailed discussion of strategy and investment changes implemented as a result of changes to the Guidelines. Please contact me if you have any questions.

**WHEREAS**, Act 118 contemplated further action in order to create general categories of permissible pre-existing piers and wharves and permissible new piers and wharves; and

  - i. The pier or wharf does not harm the public interest;
  - ii. Does not have a wider loading platform at the waterward end of the pier that is more than 200 square feet or more than 300 square feet if it is no more than 10 feet wide;
  - iii. The pier or wharf meets existing length and boat slip density standards;
- e. Continue to implement the terms of s. [NR 326.04\(1\)](#) with respect to pier length by allowing piers to extend the greater of the three foot depth contour or to the point where there is adequate depth for mooring a boat or using a boat hoist or boat lift in common use on the waterway;
- f. Grant an individual permit for new piers or wharves on lakes 50 acres or more, for a property on which there are three (3) or more dwelling units or commercial structures, provided that the standards in s. [30.12\(3m\)](#), Stats., are met, and provided that the piers or wharves are not located in an area of special natural resource interest, and provided that the piers or wharves do not have more than the following number of boat slips, whichever is smaller:
  - i. Four (4) boat slips for the first 50 feet of the property's shoreline footage and no more than two (2) boat slips for each additional 50 feet of the property's shoreline footage; or
  - ii. One boat slip for each dwelling unit, plus an additional number of boat slips if the additional slips are open to the public and the use of the additional slips is limited to the transient docking of boats for less than 24 hours;
- g. Continue to accept and review individual permit applications for any new or existing pier or wharf;
- h. Continue its practice of refraining from ordering the removal of any pier or wharf or from denying a permit for any pier or wharf unless all reasonable alternatives are considered.

3. General Provisions.

- a. Nothing in this Executive Order creates any right, benefit, or trust responsibility, substantive or procedural, enforceable at law by a person against the State of Wisconsin, its agencies, or any person.

The Honorable, Senate:

According to Wisconsin School Law 121.87 in accordance with 13.172, the Board is required by law to submit the enclosed reports. School Law 121.87 states "...annually by May 1 the board of school directors of the school district operating under ch. 119 shall submit a report to the legislature under s.13.172(2) that specifies the number, percentage, race, sex, grade and attendance area of pupils transferred outside their attendance area without written consent under s.121.85(6)(am)."

Enclosed you will find a report that meets the requirements stated above. The total number of intra-district students based under Chapter 22o designation for the school year 2005-2006 equals 17,535. Of that number 586 either did not return a consent form or checked box indicating no consent. Students who have moved during the school year and no longer require parental consent were subtracted from the non-returned figure. The district did meet the requirement of ninety-five percent (95%) parents providing consent.
