Schools miss class-size goal

Early-learning SAGE program falling short

By AMY HETZNER
ahetzner@journalsentinel.com

Posted: March 19, 2006

Sitting at their desks, reading or carefully writing on wide-lined paper, the students waited their turn to join second-grade teacher Erin Heiman at the back of her Dousman Elementary School classroom.

Advertisement It's the easiest way for Heiman to personalize reading instruction in a class that swelled to 25 students this year because of a housing boom in western Waukesha County - despite state money the school received to reduce class sizes to nearly half that amount.

"I guess we're just trying to do the best we can," Heiman said of the school's effort to follow its contract as part of the Student Achievement Guarantee in Education program, or SAGE. "And it's harder because, in the area we have right now, there are so many subdivisions."

Now in its 10th year and facing its first funding boost since its inception, SAGE is long past the point where it can be considered just an experiment. But schools throughout Wisconsin, like Dousman, are struggling to enforce the most basic tenet of the program - its 15-to-1 student-teacher ratio in kindergarten through the third grade.

Milwaukee Public Schools, which is slated to receive nearly one-third of the \$96 million to be distributed to schools in 2005-'06, has staffed many of its SAGE-funded schools with two teachers for every classroom of 30 students as allowed by law due to space pressures. This year, MPS also received permission from the state to allow four of its 86 SAGE schools to exceed the program's student limit in the second and third grades.

Money is cited as the major issue by most. The state's allocation of \$2,000 for every low-income student hasn't changed since the program began in 1996-'97, although a deal struck between key lawmakers in the state would raise that reimbursement by \$250 per child in the 2007-'09 budget. In schools where the percentage of low-income students has dropped, school leaders have found the program hard to afford.

Exceeding ratios

If his school couldn't exceed the SAGE ratios, Burdick K-8 School Principal Robert Schleck said his school probably would have dumped the program.

"There's different models that are being used throughout the city," he said, noting that in some SAGE classrooms, groups of students are pulled into the hallway or other locations during the day to maintain the teacher-to-student ratio.

Particularly in schools with fewer low-income students, which receive less SAGE funding, the state Department of Public Instruction has been willing to allow classrooms to exceed the law's 15-student cap, although it often requires that they have extra personnel for reading and mathematics.

State DPI data show that at least 40% of SAGE schools employed half-time teachers to meet the program's requirements in 2004-'05.

"If they call us and say 'We just don't have space, next year we have this big bulge at kindergarten, what will we do,' we'll work with them," said Margaret Planner, assistant state superintendent for reading and student achievement.

But Stevens Point School Board member Mark Ptak said he is concerned about such compromises.

He said he has seen a "whittling down of services" provided as part of SAGE as class sizes have grown to 18 and 22 students each.

If the district needs to spend its own money to live up to the SAGE requirements, it should do it, Ptak said.

"If we don't do it, they should yank the money and give it to someone else," he said. "I think now they need to start enforcing the rules . . . 15-to-1 student-teacher ratio, not 18-to-1, not 19-to-1, 20-to-1 . . . or they should change the law."

SAGE was enacted by the Legislature in 1995 on the heels of the Student Teacher Achievement Ratio project in Tennessee. STAR studied more than 7,000 students in 79 schools over four years, and determined that students in small classes that averaged 15 students did better than those in larger classes.

This year, 495 Wisconsin schools are slated to divide more than \$96 million in funding from SAGE - \$2,000 for each student in kindergarten through third grade enrolled in a SAGE school who qualifies for free or reduced-price lunch.

The funding method has been a boon to some school districts, particularly those with small schools and already low student numbers. In Wisconsin Rapids, for instance, Superintendent Dean Ryerson said a recent budgetary review of SAGE found that the school system would save only \$2,000 if it quit the program, which gives the district more than \$1 million annually.

But SAGE has busted budgets in other districts that say they have had to spend more of their own money to sustain smaller class sizes.

The Racine Unified School District estimates it saved hundreds of thousands of dollars by ending SAGE at three of its elementary schools and moving the program into a school with a high proportion of low-income students.

At Dousman Elementary, which receives only \$60,000 per year for a low-income student population that hovers around 10% in the early grades, Principal Barb Reamer said the money so far has helped pay for the equivalent of one full-time reading teacher.

"We've really struggled with how to honor SAGE," Reamer said. "Each year, we look at it and say 'Is this something we can do?' It's not something we take for granted."

A deal struck between Democratic Gov. Jim Doyle and Republican Assembly Speaker John Gard that allows an increase in the number of students participating in Milwaukee's voucher program also will boost SAGE funding by \$25 million - or \$250 per student - in the 2007-'09 budget.

The money will come too late for one school.

Milwaukee's Tippecanoe Elementary School could not find a way to keep SAGE next school year without cutting its art, music, and physical education instructors, as well as the guidance counselor. With the loss of SAGE, classes are expected to jump to about 27 students.

Dawn Bell, a Tippecanoe parent whose son is a kindergartner at the school, worries about what will happen.

"A lot of people are sending their kids there because they've got smaller class sizes," she said. Her son's classroom usually has two teachers for 30 students, and on one recent week, one of the teachers was absent. "You could tell that (the other) was a little flustered, a little overwhelmed," Bell said.

While most educators like the idea of class-size reduction, they also say smaller classes aren't always the answer.

Olga Pallan, a teacher in the SAGE program at White Rock Elementary School in Waukesha, has had up to 18 students in her Spanish-speaking kindergarten class with no additional help. This school year, she has 13 students.

"There's a difference, but mostly it depends on the behavior of the children," Pallan said. "Sometimes you can get a class of 19, and they'll be just fabulous."

Sarah Carr of the Journal Sentinel staff contributed to this report.

State tightening class-size initiative

Schools receiving funding must get formal waiver to exceed 15-1 ratio

By AMY HETZNER
ahetzner@journalsentinel.com

Posted: May 31, 2006

In an effort to get a better handle on state money schools use to reduce class sizes, the state Department of Public Instruction plans to tighten its control over schools that seek to escape from standards set by a state class-size reduction program.

Advertisement The state agency has imposed a new requirement that schools seek formal waivers before exceeding a 15-to-1 student-teacher ratio guideline set by the Student Achievement Guarantee in Education program.

DPI Deputy Superintendent Tony Evers acknowledged that requiring schools to get a waiver could end some practices the DPI had not known were in effect. Yet the requirement isn't designed to limit flexibility schools have had, he said.

"Clearly, one of the things that's important about SAGE - and that research tends to support - is there have to be small class sizes," Evers said. "So if requests come in that don't do anything to reduce class sizes, the possibility of them passing (through DPI) are slim."

Previously, the DPI reached informal agreements with schools seeking to exceed the law's 15-to-1 student-teacher ratio while still collecting money from the SAGE program.

SAGE is to pay out \$96 million to 495 schools in the current school year. But in some cases, the DPI didn't know how some schools were using their money until a March newspaper article outlined ways SAGE schools were exceeding the class-size standard, Evers said.

One of the schools, Dousman Elementary School in Waukesha County's Kettle Moraine School District, used its SAGE funding to pay the equivalent of a full-time reading teacher even as class size reached 25 in one second-grade room.

Evers seemed to cite that case as a practice that would not be approved by DPI in its new procedure.

"I mean, that's an extreme example, but the fact is the law is about reducing class size," he said.

Kettle Moraine Superintendent Sarah Jerome said she was trying to get information about the change from the DPI. "I don't know what they're doing, nor do I know what its impact will be," she said.

In Milwaukee Public Schools, where four schools were allowed to exceed the SAGE program's class-size limit in second and third grades this school year, finance director Michelle Nate also said she hadn't heard of DPI's change and did not know if it would affect schools' eligibility for extra funding.

Evers said the DPI has yet to formally notify districts about the change.

Unease over spending

Even though the DPI's move to require formal waivers satisfies one concern that state Rep. Kitty Rhoades outlined in a recent letter to state schools Superintendent Elizabeth Burmaster, the Hudson Republican said she is still uneasy about how the DPI has allowed schools to spend SAGE money.

In particular, Rhoades questioned agreements that allowed schools to receive SAGE funds if they bring in extra teachers for reading and math lessons for classes that exceed the 15-student limit.

Rhoades said she would like her questions about the program answered before the state's next budget cycle to make sure she understands how the money is being used. She said she's not threatening funding for the program, which is supposed to get a \$25 million boost in the 2007-'09 budget in a deal struck by Doyle and Assembly Speaker John Gard.

"I think that SAGE, by definition, was pretty clear - 15-to-1, grades K, 1, 2 and 3," Rhoades said. "And apparently it's different than that."
