Senate Committee on Education
Testimony for SB 322 from State Senator Luther Olsen

SB 322 is a bill I've been working on with DPI.

Currently, anytime there is a reorganization of school districts, the School District Boundary Appeal Board must send certified mailings to every unit of government any part of which is contained by either district.

The average cost of these mailings is \$4 each, and takes additional staff time.

Under this legislation, in a reorganization that involves the transfer of a small territory (less than 7% of equalized value) from one district to another, the Appeal Board must send a certified copy, by certified mail to the clerk of each city, village or town in which any of the *territory* is located, and to the clerk of each county in which any part of an affected school *district* is located.

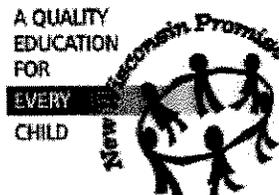

In short, the bill would limit the required mailings to only those entities affected by the change. The Department has indicated that the board's intention is to continue mailing by regular mail, a notice to everyone who will no longer receive a certified mailing under this bill.

It will save some money, while still ensuring that the affected municipalities are aware of any changes.

P.O. Box 7882 • Madison, Wisconsin 53707-7882

DEPARTMENT OF PUBLIC INSTRUCTION
2005 LEGISLATIVE SESSION

STATUTORY LANGUAGE CHANGE PROPOSAL

Subject: CHANGE MAILING REQUIREMENTS—SCHOOL DISTRICT REORGANIZATION ORDERS

Agency Contact: Jennifer Kammerud (266-7073)

Description of Intent/Comparison to Current Law:

Current law requires that if a resolution or order filed with the School District Boundary Appeal Board (SDBAB) affirms or grants a reorganization or resolves a boundary dispute, within five days after receipt of the resolution or order, the secretary of the SDBAB must send, by certified mail, a certified copy of the resolution or order to the clerk of each city, village, town or county, any part of which is contained within an affected school district, or any part of which is contained within an interested school district if the resolution or order resolves a boundary dispute. Although not required under current law, the department also sends a copy of resolutions or orders, by regular mail, to the school district administrators and school district board clerks of the affected school districts as well as to the petitioner(s).

This proposal would change the mailing requirements as follows:

- A certified copy of the resolution or order would be sent, by certified mail, to: (1) school district administrators of the affected school districts, (2) school district board clerks of the affected school districts, (3) the clerk of the municipality in which the property is located, and (4) the petitioner(s).
- A certified copy of the resolution or order would be sent, by regular mail, to the clerk of each city, village, town or county, any part of which is contained within an affected school district, or any part of which is contained within an interested school district if the resolution or order resolves a boundary dispute.

The proposal ensures that the department would have a record that certified copies of the resolution or order had been received by the school districts involved, the municipality in which the property is located and the petitioner(s). Notices to the clerks of municipalities that are within an affected school district, but do not contain the property, as well as notices to county clerks, are considered courtesy copies. Mailing these notices by regular mail rather than certified mail seems reasonable and adequate.

The proposal would reduce costs and staff time associated with certified mailings. The average cost of each certified mailing is \$4.00. Total cost in FY04 of doing the certified mailings, as required by current law, was approximately \$1200 and 15 hours of staff time. It is estimated that by requiring certified mailing only as indicated above, and by sending the other notices by regular mail, department expenses could be decreased significantly, and support staff time could be redirected to other tasks. For example, it is estimated that approximately \$900 would have been saved in FY04 if the proposal had been in effect during that year, and staff time would have been reduced as well.

Action in Previous Legislation:

Process around 50 requests per year and around 35 transfers.
