## Malaise, Gordon

---

**From:** Hoey, Joseph  
**Sent:** Monday, April 30, 2007 11:55 AM  
**To:** Malaise, Gordon  
**Subject:** LRB-1063/1 - AB 90

Gordon,

As I mentioned in my phone message, Sheldon would like to impose a penalty on those loan recipients who do not complete 6 years of service in a health professional shortage area. The idea is to have the penalty decrease in severity the longer a student participates in the program. The following formula, (based on a penalty in federal regulations) will leave students who drop out of the program right away with an obligation to pay back three times what they were loaned, students who complete 3 years with an obligation to pay back twice what they were loaned and students who complete 5 out of six years with an obligation to pay back 1 and 1/3 what they were loaned.

$$A = 2 \times \emptyset \times (72-s)/72$$

In which:

'A' is the penalty,

' $\emptyset$ ' is the total amount remaining on the loans

's' is the number of months the recipient has been employed full time as a doctor of medicine in a health professional shortage area.

Let me know if you have any questions.

Thanks.

Joe

ASSEMBLY AMENDMENT,  
TO 2007 ASSEMBLY BILL 90

LPS-  
print with  
line  
numbers

At the locations indicated, amend the bill as follows:

1. Page 1, line 3: delete "areas," and substitute "areas in this state,"

2. Page 3, line 4: delete that line and substitute "(aj), in this state."

3. Page 3, line 19: after "time." insert "If a loan recipient breaches his or her agreement under sub. (1) to practice medicine for not less than 6 years in an area described in sub. (1), the loan recipient shall repay to the board the balance of the loan's principal and interest remaining plus a penalty calculated as follows:

(a) Multiply the balance of the loan's principal and interest remaining by 2.

(b) Subtract the number of months that the loan recipient has been practicing medicine as agreed to under sub. (1) from 72 and divide that difference by 72.

(c) Multiply the product obtained under par. (a) by the quotient obtained under par. (b)."

A
