

**DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU**

LRBa0556/1dn

July 31, 2007

Rep. Ott:

Regarding the language created in this amendment for proposed s. 101.862 (4) (i), it is my understanding that "utility services" refers to services the cost of which are included or reflected in rates authorized by tariffs approved by the PSC, as well as comparable services provided by cooperative associations, which are generally not subject to the PSC's authority.
