To: Robin Kite, Legislative Attorney
Legislative Reference Bureau

From: Debra Miller, Budget & Policy Analyst
Dept. of Commerce

Re: 2007 AB 495 – Technical Memo

2007 AB 495 indicates that the Department must publish a class 1 notice regarding the proposed construction of a liquefied petroleum gas installation that used containers of 15,000 gallons or larger water capacity. Such a notice must be published at least 90 days before the date on which construction is proposed to begin or at least 90 days before the date on which the department receives a request for approval of the proposed construction.

There is a technical problem in that there is currently no requirement that the Department be notified prior to the submittal of the construction proposal.
