## Tradewell, Becky

**From:** Hodgson, Amber  
**Sent:** Thursday, January 31, 2008 1:01 PM  
**To:** Tradewell, Becky; August, Tyler  
**Subject:** RE: Amendment request

Hi Becky,

We want to include, in the required disclosure of any vaccines/medication/treatments the puppy has received, a disclosure of if the puppy has or has not been seen by a licensed Wisconsin veterinarian. If the puppy has been seen, we would like those medical records to be available to the potential purchaser prior to purchase of the animal--from our understanding, under current law they don't gain access to those records until after they become the owner of the animal, but we want them to have access to them before sale. We would also like to require the seller to give the purchaser the name and contact information of the veterinarian who examined the dog. If the puppy has not been seen, it must be explicitly disclosed to the purchaser that it has not been seen by a vet.

I hope this is helpful. If you have any additional questions, please feel free to give Tyler or I a call.

Best,

Amber

Hi Becky,

I have a small request regarding the most current amendment you've been working on. Rather than "signed consent for the purchaser to have access to the dog's health care records," we'd like the seller to have to give the medical records to the buyer--basically, we want the onus on the seller rather than the purchaser when it comes to obtaining the records.

I hope this is clear. Please feel free to call me in the morning if you wish to discuss further.

Thanks!

Amber

Yes that's correct. We basically want the sellers to automatically have to give the purchaser those records rather than have the onus be on the purchaser to go get them.

So the short answer is yes.

Thanks!

Amber,

So a seller would have to get health records for all of the dogs that have seen Wisconsin veterinarians from the veterinarians and automatically provide the records to buyers?
