The list may also include property taxes that the district collected as a result of certain errors in the district's tax roll. Under current law, the taxation district must distribute a proportionate share of the amount of any such collected taxes to the taxing jurisdictions that are part of the taxation district. Under this bill, a taxation district clerk must submit the district's list of refunded or rescinded taxes to DOR and must include on the list the amount of any property taxes collected on property that was omitted from the property tax roll in the previous two years and distribute a proportionate share of that amount to the taxing jurisdictions that are part of the taxation district.

Under current law, no earlier than February 2 and no later than April 1, a taxation district treasurer may charge back to each taxing jurisdiction its proportionate share of personal property taxes that the taxation district settled in full the previous February, that were delinquent at the time of settlement, that have not been collected in the year following the settlement, and that remain delinquent. Under this bill, the personal property taxes that a taxation district may charge back
