Analysis by the Legislative Reference Bureau

SALE OF UNSAFE CHILDREN’S PRODUCTS

This bill regulates sales of products that are designed principally for the care of, or use by, children under 12 years of age (children’s products), including children’s furniture, apparel, and toys. The provisions of the bill apply to persons who sell, lease, manufacture, or remanufacture children’s products (commercial suppliers). Under the bill, a commercial supplier includes a person in the business of selling or leasing used merchandise, but does not include a person who sells or leases a children’s product on an occasional basis, as defined by the Department of Agriculture, Trade and Consumer Protection (DATCP) by rule.

The bill prohibits the sale of a children’s product by a commercial supplier if any of the following apply: 1) the children’s product fails to conform to any state or federal

SENATE BILL 37

safety law or regulation; 2) the children's product has been recalled by DATCP, by a federal agency, or by the manufacturer, distributor, or importer, and the recall has not been rescinded; or 3) DATCP or a federal agency has issued a warning that the intended use of the product presents a safety hazard and the warning has not been rescinded. The bill requires DATCP to maintain a list of such products and to make the list available to the public on the Internet. The bill also prohibits the sale by commercial suppliers of baby cribs that fail to meet certain requirements under federal regulations. The bill requires a commercial supplier to post a conspicuous notice to customers if a children's product the commercial supplier has sold is included in the list of unsafe children's products maintained by DATCP.

Also under the bill, a product that is subject to a recall may be retrofitted if the retrofit is approved by the agency that recalled the product. A retrofitted product may be sold to a consumer only if the product is accompanied by a notice containing certain information including a description of the problem that required the recall and an explanation of how the retrofit has eliminated the problem.

The bill requires DATCP to promulgate rules to ensure the safety of children's products. The rules must be consistent with nationally recognized industry standards for children's products, and must include certain design and performance requirements for baby cribs.

Under the bill, DATCP, the Department of Justice, the district attorney, or any other person may bring an action for an injunction against a commercial supplier who sells a children's product or baby crib in violation of the prohibitions in the bill. The bill also provides for a forfeiture of \$100 to \$10,000 for each violation.

USE OF UNSAFE CHILDREN'S PRODUCTS

Under current law, no person may operate a residential care center for children and youth, group home, day care center, or shelter care facility unless the person is licensed by the Department of Health and Family Services (DHFS). Similarly, no person may operate a foster home or treatment foster home unless the person is licensed by DHFS, a county department of human services or social services (county department), or a child welfare agency. Also, under current law, a county department must certify a day care provider who is not required to be licensed by DHFS in order for the day care provider to be eligible for reimbursement under the Wisconsin Works (W-2) Program. In addition, under current law, a school board may establish or contract for day care programs for children.

This bill prohibits a residential care center for children and youth, foster home, treatment foster home, group home, day care center, day care provider, day care program, or shelter care facility from using or having on a premises where care for children is provided a children's product or baby crib whose commercial use is prohibited under the bill. That prohibition, however, does not apply to an antique or collectible children's product or baby crib that is not used by, or accessible to, any child on the premises where the care is provided.

Under the bill, before DHFS may issue an initial license to operate a residential care center for children and youth, foster home, treatment foster home, group home, day care center, or shelter care facility; before a county department may issue an initial license to operate a foster home or treatment foster home or initially certify

SENATE BILL 37

a day care provider; before a child welfare agency may issue an initial license to operate a foster home or treatment foster home; and before a school board may initially contract with a day care program; all of the following must occur:

1. DHFS, the county department, the child welfare agency, or the school board must inspect the premises where care for children is provided to ensure compliance with the bill.

2. DHFS, the county department, the child welfare agency, or the school board must provide the residential care center for children and youth, foster home, treatment foster home, group home, day care center, day care provider, day care program, or shelter care facility with notice of the prohibitions and requirements under the bill and with the list maintained by DATCP under the bill of all children's products whose commercial use is prohibited under the bill. The notice and list must be provided in plain, nontechnical language that will enable the recipient of the notice and list to inspect the children's products and baby cribs on its premises and identify those children's products and baby cribs that are unsafe. A list provided under the bill must be retained by its recipient for one year after the date of its receipt.

3. The recipient of the notice and list must review the notice and list, immediately remove from its premises any children's products and baby cribs that are unsafe, and certify that all unsafe children's products and baby cribs have been removed from its premises.

The notice and list must also be provided, and the recipient of the notice and list must also immediately remove any unsafe children's products and baby cribs from its premises, before DHFS may continue the license of a residential care center for children and youth, group home, day care center, or shelter care facility or renew the license of a foster home or treatment foster home; before a county department may renew the license of a foster home or treatment foster home or recertify a day care provider; before a child welfare agency may renew the license of a foster home or treatment foster home; before a school board may renew a contract with a day care program; and whenever personnel of DHFS, the county department, the child welfare agency, or the school board visit or inspect the premises where care for children is provided.

Finally, the bill requires a residential care center for children and youth, foster home, treatment foster home, group home, day care center, day care provider, day care program, or shelter care facility to maintain a file of all notices provided and lists retained under the bill and to permit the parent, guardian, or legal custodian of any child who is receiving care, or who is a prospective recipient of care, to inspect those notices and lists during its hours of operation.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
