

DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU

LRBa0329/1dn
MDK:wlj:sh

April 18, 2007

Sen. Plale:

Please note the following about this amendment:

1. The instructions refer to "PEG access facilities," which is not defined. Instead, I refer to access facilities for PEG channels. The instructions include other terms that aren't defined, as well as some procedures that may not be clear. For example, I don't know what a "relative" number of subscribers is, and I don't know how the pro rata calculations are supposed to be made. However, given the urgency of this request, I was not able address these issues.
2. I think you need to allow interim cable operators to provide support for PEG channels until their cable franchises expire, and I created language to do that.
3. Except in the provision relating to itemization, I referred to monetary support, rather than a fee, because I don't the think your usage of the word "fee" is consistent.
