August 31, 2007

To Representative Gundrum:

I have changed this amendment from the proposed material I was provided, as follows:

1. Instead of using “conscience–based objection” and “contrary to the individual’s conscience,” I used language of 2005 Assembly Bill 207 in referring to “moral or religious grounds” and “religious beliefs or moral convictions.”
2. I added an “except” clause to s. 50.375 (2) (intro.).
3. Instead of using “individual,” I referred to “a hospital employee or individual with whom a hospital contracts.”
4. The changes proposed necessitated an amendment to s. 50.38 (2) and (3), stats.

I unfortunately will be out of the office from September 3 to September 14. In my absence, however, Cathlene Hanaman of this office may be contacted for further amendments or changes to this amendment.
