

**DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU**

LRBa1131/P1dn

Matt Pagel:

I decided to do a preliminary version of the amendment with only the item you definitely want (on the credit trading) plus the item you sounded pretty sure of, the one-year delay in the biodiesel provisions. This should help get a finalized draft in time for the executive session. If it turns out that these are the only provisions you want, let me know and I can redraft to a /1 version quickly.
