

## Fiscal Estimate Narratives

DOA 1/31/2008

LRB Number	<b>07-3818/1</b>	Introduction Number	<b>SB-414</b>	Estimate Type	<b>Original</b>
<b>Description</b> Relating to: preparation and legislative consideration of a biennial budget bill.					

### Assumptions Used in Arriving at Fiscal Estimate

If enacted, SB-414 would require the creation and submission of a biennial state agency budget modification report, and would require that state agencies submit biennial budget requests free of earmarks and non-fiscal policy items.

The development and production of the new report could require significant staff time and effort by DOA. While the staff time required to compile and analyze the required information could be significant, it is not possible to quantify the fiscal effect, as it would be dependent upon both the size and scope of the budget proposals submitted and then altered by the Governor, as well as those developed by the Governor.

The State Budget Office currently budgets approximately \$13,000 biennially for the printing costs associated with the production of the Executive Budget Book. This is the best comparable estimate of the cost of printing a biennial state agency budget modification report.

### Long-Range Fiscal Implications

Unknown.
