Tradewell, Becky

From: Stolzenberg, John
Sent: Saturday, March 01, 2008 1:47 PM
To: Tradewell, Becky
Cc: Bier, Beth
Subject: Revised instruction for #18 on maximizing the use of existing infrastructure

Becky,

Here's Beth's revision on instruction #18 in her table. Rather than deleting the entire sentences relating to water supply planning application and approval requirements on maximizing the use of existing infrastructure (on page 145, lines 22 and 23 and page 146, lines 11 and 12), as in yesterday's instruction, she wants to retain the sentences and clarify that the reference to "existing water supply" infrastructure refers to the parts of the supply system that will still be used after the diversion is approved and implemented. This is intended to keep the reference to water supply infrastructure in the planning provisions but not have it include existing equipment or facilities that the system is trying to move away from, e.g., Waukesha's contaminated high cap wells or any facilities used to treat radium.

One way to do this is to use text from the definition of "public water supply" and amend page 146, lines 11 and 12 as follows:

2. The plan will effectively maximize the use of existing water supply storage and distribution facilities and wastewater infrastructure.

Page 145, lines 22 and 23 would require the same treatment.

PRELIMINARY DRAFT - NOT READY FOR INTRODUCTION
SENATE AMENDMENT ,
TO 2007 SENATE BILL 523

1
2
3
4

At the locations indicated, amend the bill as follows:

- ✓ 1. Page 145, line 23: after "supply" insert "storage and distribution facilities".
- ✓ 2. Page 146, line 11: after "supply" insert "storage and distribution facilities".

(END)

LRBa1491/P1 (if there is time)

1. Fix the gap in the "approvals" on which water loss approvals under s. 281.35 are applied, based on modifying the individual permit under s. 281.344 (5) or 281.346 (5) to address the water loss approval.

This appears to require at least amending:

- a. The definition of "approval" in s. 281.35 (1) (a) to include these individual permits.
- b. Expanding the list of approvals for which water loss approvals are required under s. 281.35 (4) to include these individual permits.

LRBa1499/P1

1. Add "to the extent feasible" or "to the extent practicable" to the text of the subd 6. on page 145, lines 22 and 23, as amended by LRBa1499/P1, and to subd. 2. on page 146, lines 11 and 12, as amended by LRBa1499/P1.

If you will be drafting these changes first as /P2 versions of these amendments, please let me know that so my memo on the amendments to Sen. Miller can reflect those numbering changes.

With respect to drafting the 4 new "super" simple amendments for Sen. Miller, I've attached a WORD file that contains 2 tables. These tables group the 34 amendments prepared for Sen. Miller by subject and then sort the amendments within a group by item # and by LRB #. Each of these 4 groups should constitute one of the super simple amendments.

Amendment
signments.doc (98

Please let me let me know the LRB # that you assign to the 4 super simple amendments based on these groupings.

Thanks.

John
