2007 SENATE JOINT RESOLUTION

Today please

1 **Relating to: American Stroke Awareness.**

Month

2 Whereas, the month of May has been recognized as American Stroke
3 Awareness Month; and

4 Whereas, every 45 seconds, on average, someone in the United States suffers
5 from a stroke; and

6 Whereas, each year about 700,000 Americans suffer a new or recurrent stroke;
7 and

8 Whereas, these figures are especially troubling considering that stroke is the
9 third leading cause of death in the United States, ranking only behind diseases of the
10 heart and cancer; in 2004, stroke accounted for one of every 16 deaths in the United
11 States; and

12 Whereas, Wisconsin had a staggering 14,573 stroke hospitalizations in 2004,
13 and 10,960 deaths related to stroke or its aftereffects; and

14 Whereas, even for those who survive an initial stroke, the aftermath poses
15 serious risk of recurrence, and recovery is difficult; 21 percent of men and 24 percent

1 of women who have an initial stroke die within a year, and stroke is a leading cause
2 of serious, long-term disability in the United States; and

3 Whereas, regrettably, certain ethnic groups are more likely to suffer from
4 stroke than others: African Americans generally have almost twice the risk of
5 first-ever stroke compared with white Americans, and African Americans between
6 the ages of 35 and 54 have four times the relative risk for stroke; and

7 Whereas, despite the prevalence and serious consequences of stroke, the
8 majority of Americans are not aware of their risk factors for a stroke, nor are they
9 aware of the signs and symptoms of an impending stroke, such as sudden numbness
10 or weakness of the face, arm, or leg; sudden trouble with speaking or with seeing in
11 one or both eyes; sudden dizziness or loss of balance and coordination; and sudden
12 severe headache; and

13 Whereas, in an effort to address these issues, in November 2005, the American
14 Stroke Association launched its "Power to End Stroke" campaign aimed at educating
15 the African American community on how to reduce the chances of having a stroke,
16 recognizing the symptoms of stroke, and responding to the warning signs that a
17 person is suffering or has suffered from a stroke; now, therefore, be it

18 **Resolved by the senate, the assembly concurring, That** the members of the
19 Wisconsin legislature hereby express their support for the American Stroke
20 Association's "Power to End Stroke" campaign and do hereby proclaim May 6, 2007
21 to be Power to End Stroke Day

Subject: LRB 2639/1

Steve,

I've faxed over the information you requested. The one additional whereas clause we would like would go between number 12 and 13 on the second page.

“Whereas, organizations like the American Heart Association and the American Stroke Association are devoted to educating people about the causes of stroke, and to working with health advocates around the country to increase prevention measures; and”

Thanks so much

~k
