Miller, Steve

From: Beilman-Dulin, Joanna
Sent: Monday, March 10, 2008 12:13 PM
To: Miller, Steve
Subject: Request: Joint Resolution for session tomorrow

Hi Steve,

Senator Lassa would like to get a joint resolution drafted that she can introduce on the floor tomorrow. I have copied the desired resolution language at the end of this email. Would you be able to prepare this for tomorrow? I called the main line for LRB Drafting and they said I should send you an email with the request.

Thanks for your assistance on this. And, of course, please let me know if you have any questions or require additional information.

Joanna

Relating to: May 12, 2008, as Fibromyalgia Awareness Day. 4270

Whereas, Fibromyalgia is a disease with uncertain cause and no known cure; this chronic condition affects an estimated seven to ten million people in the United States and many more millions of people worldwide; and,

Whereas, Fibromyalgia is more likely to affect women, occurring nine times out of ten more likely to occur in women than in men; and,

Whereas, Fibromyalgia is a very serious and chronic illness, increasing at dramatic rates, causing those affected to suffer with fatigue and debilitating pain in the muscles, ligaments, and tendons in the body; and

Whereas, People living with this condition have to learn to live with difficulty in performing everyday activities such as climbing stairs, lifting weight and many other actions involving physical strain in addition to widespread pain in muscles, joints, and ligaments; and

Whereas, People with Fibromyalgia face discrimination in the workplace and from family and friends because so few people are aware or understand what Fibromyalgia is and the symptoms it manifests; and,

Whereas, A diagnosis of Fibromyalgia is difficult and takes an average of five years because many of the symptoms mimic those of other disorders, resulting in the average person spending thousands of dollars in medical bills just to receive a diagnosis; and,

Whereas, Public education is important in order for patients to be able to receive proper diagnosis and treatment; public awareness will help eliminate the myths, improve patient support, and encourage research; and now therefore be it,

Resolved by the assembly, the senate concurring, That May 12, 2008, be recognized as Fibromyalgia Awareness Day in Wisconsin, and all citizens are encouraged to support those seeking a cure and to assist those individuals and families who deal with this devastating disease on a daily basis.
