As you requested, the attached draft renumbers this local appropriation from par. (hv) to par. (cw) to move it closer to the state funds and federal funds appropriations for the same program. As we discussed, our drafting convention is that the second alpha of a local funds appropriation under s. 20.395 is always "v" and I believe there are good reasons for this convention. However, since the convention does not seem to be dictated by statute (see s. 20.003 (3) (c) 7.), and it is my understanding that the State Budget Office has considered these factors and would still like the appropriation numbered "(cw)," I have made this change.
