1 AN ACT ...; **relating to:** agreements and ancillary arrangements relating to
 2 public debt and other obligations and making appropriations.

Analysis by the Legislative Reference Bureau

STATE FINANCE

Currently, the Building Commission (commission) may enter into agreements and ancillary arrangements relating to public debt. This bill provides that, at the time of entering into the agreements or ancillary arrangements, or in anticipation thereof, the commission must determine, if applicable, whether the payment will be deposited into, and whether the payment will be made from, the bond security and redemption fund or the capital improvement fund.

The bill also establishes a number of conditions relating to interest exchange agreements. These include all of the following:

1. The commission must contract with an independent financial consulting firm to determine if the terms and conditions of the agreement reflect a fair market value, as of the proposed date of the execution of the agreement.
2. The interest exchange agreement must identify by maturity, bond issue, or bond purpose the debt or obligation to which the agreement is related. The

determination of the commission included in an interest exchange agreement that such agreement relates to a debt or obligation is conclusive.

3. The resolution authorizing the commission to enter into any interest exchange agreement must require that the terms and conditions of the agreement reflect a fair market value as of the date of execution of the agreement, as reflected by the determination of an independent financial consulting firm.

4. Finally, the commission must establish guidelines relating to the conditions under which the commission may enter into the agreements; the form and content of the agreements; the aspects of risk exposure associated with the agreements; the standards and procedures for counterparty selection; the standards for the procurement of, and the setting aside of reserves, if any, in connection with, the agreements; the provisions, if any, for collateralization or other requirements for securing any counterparty's obligations under the agreements; and a system for financial monitoring and periodic assessment of the agreements.

The bill further requires that the terms and conditions of an interest exchange agreement entered into by the commission or DOA for an interest exchange agreement exceeding a cumulative notional amount of \$600,000,000 must generally not result in both aggregate expected debt service and net exchange payments relating to the agreement in the fiscal year in which the trade is executed being less than those payments that would be payable in that fiscal year if the agreement is not executed and aggregate expected debt service and net exchange payments relating to the agreement in subsequent fiscal years exceeding those payments that would be payable in those fiscal years if the agreement is not executed.

The bill requires DOA to issue a semiannual report that includes a description of each agreement, including a summary of its terms and conditions, rates, maturity, and the estimated market value of each agreement; an accounting of amounts that were required to be paid and received on each agreement; any credit enhancement, liquidity facility, or reserves, including an accounting of the costs and expenses incurred by the state; a description of the counterparty to each agreement; and a description of the counterparty risk, the termination risk, and other risks associated with each agreement.

Under current law, the commission may issue revenue bonds for major highway projects and transportation administrative facilities in a principal amount that, with certain exclusions, may not exceed \$2,324,377,900. DOT may deposit in a special trust fund vehicle registration fee revenues and other revenues pledged for the repayment of these revenue bonds. Moneys pledged in excess of the amount needed for repayment of these revenue bonds are transferred back to the transportation fund, free of any pledge.

This bill allows DOT to deposit in this trust fund revenues received under an interest exchange agreement and to make payments under an interest exchange agreement, which amounts are excluded from the limit on revenue bonding.

Under the Clean Water Fund Program, this state provides loans to municipalities for projects to control water pollution, including sewage treatment plants. The program is funded from loan repayments, federal grants, state general obligation bonds, and state revenue bonds. The commission may issue revenue

bonds for the Clean Water Fund Program in an amount that does not exceed \$1,615,955,000. In addition, the Department of Commerce currently administers a program to reimburse owners of certain petroleum storage tanks for a portion of the costs of cleaning up discharges from those tanks. This program is commonly known as PECFA. PECFA is funded from the petroleum inspection fee and state revenue bonds. The commission may issue revenue bonds for PECFA in an amount that does not exceed \$436,000,000. This bill permits the commission to make payments under an agreement or ancillary arrangement with respect to revenue bonds issued for the funding of these two programs.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
