Hi Aaron –

The Governor has decided he would like to earmark \$60,000 of LRIP money is used in the upcoming biennium to rehabilitate a road that leads to a state veteran's cemetery. Unfortunately, that is the extent of the information I have at this moment, but I wanted to give you a heads up and also ask whether you think this should be done as a separate draft, or is it easier/more appropriate to fold this into the LRIP inflation draft?

Thanks! I'll send over an official request, and try to get more complete information ASAP.

Sara,

There actually is no state veterans cemetery in Douglas County. It is located in Washburn County (near Spooner, Town of Beaver Brook, I believe).

It should be fine to just indicate providing funding under LRIP for a project involving a road to a veterans cemetery in Washburn County.

The draft could either be a new request or a modification of Laurie's draft, whichever works best for the drafters. The original thought was to take the funding from DVA, but that approach is no longer the case.

Thanks,

Kirsten

Aaron, I don't think we know exactly who the recipient would be – since any local gov't would have to officially apply for LRIP funds, maybe we get around this issue by saying something like \$60,000 would go to the applicant seeking funds for the road to the veterans cemetery in Washburn County?

Under current law, DOT administers a local roads improvement program (LRIP), which includes an entitlement component and a nonentitlement (discretionary) component. Under the discretionary component, DOT allocates specified amounts in each fiscal year to fund eligible county trunk highway improvements, town road improvements, and municipal street improvements.

This bill requires DOT to award a grant of \$60,000, from amounts appropriated for the discretionary component of the LRIP, to the first eligible applicant that applies for a grant for the improvement of a road accessing a state veterans cemetery in Washburn County.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.

As discussed, I have attempted to fashion a workable provision given the fact that the grant recipient is actually unknown at this time. I have drafted the provision to award the grant to the first eligible applicant in the event there is more than one applicant (for example, the county and the municipality). In that case, hopefully the "right" applicant will apply first.

The grant awarded by the draft is awarded from the LRIP discretionary funds appropriation, s. 20.395 (2) (ft). Please advise if you intended the grant to be awarded from s. 20.395 (2) (fr). I thought s. 20.395 (2) (ft) was a better fit.
