Sen. Vinehout:

This amendment negates the bill's restrictions on municipal authority over rights-of-way.

Note that I deleted the provision in the bill that allows a video service provider to deduct from video service provider fees that are due to a municipality any cost-based right-of-way permit fees that the video service provider pays the municipality. (The bill allows the deduction to be made against *any* compensation due to the municipality, *including* video service provider fees.) Is that okay?
