5 (title), 29.179 (4) (title) and 29.179 (5) of the statutes; **relating to:** the transfer
6 of certain fish and game licenses and permits to minors.

Analysis by the Legislative Reference Bureau

Under current law, the Department of Natural Resources (DNR) issues certain licenses and permits, including otter and fisher trapping permits, bonus deer hunting permits, Canada goose hunting permits, Class A bear licenses, wild turkey hunting licenses, and elk hunting licenses, based on a random or preference selection system. The preference selection system for a wild turkey hunting license, for example, provides that resident landowners are in the first preference category, residents who applied in a previous season are in the second preference category, all other residents are in the third preference category, qualified nonresident landowners are in the fourth preference category, and all other nonresidents are in the fifth preference category.

Under current law, a person may transfer a Class A bear license to a minor. This bill expands this provision to allow a person who has been issued a license or permit under a random or preference selection system to transfer the approval to a minor

ASSEMBLY BILL 228

who is eligible to use the approval and who has not previously been transferred that type of approval.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
