

**DRAFTER'S NOTE  
FROM THE  
LEGISLATIVE REFERENCE BUREAU**

LRB-3350/1dn  
PG:bjk:rs

October 30, 2007

Representative Suder:

1. Do you also want to define "resource"? See s. 196.378 (1) (j), stats., which defines "resource" as a source of energy used to generate electronic power.
2. Note that if a school district sells electricity to retail customers, it may be considered a public utility under s. 196.01 (5) (a) and be subject to regulation by the Public Service Commission.
