

**DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU**

LRBa1224/1dn
MGG:kjf:nwn

February 12, 2008

I did not think it necessary both the local fire departments and Commerce report the information to the U.S. Fire Administration. From the instructions given, it appears that the intent is to give the local fire departments primary responsibility. Also, the state does not have the authority to require that the the U.S. Fire Administration, which is a federal agency, maintain any records. I, therefore, did not include that concept in this amendment.
