3

4

Inserts

AN ACT ...; relating to: requiring local governmental units to consider relationships with drainage districts in the preparation of comprehensive plans and requiring local governments and drainage districts to provide notice to each other regarding proposals that affect drainage districts.

### Analysis by the Legislative Reference Bureau

Under the current law commonly known as the "Smart Growth" statute, if a city, village, town, county, or regional planning commission (local governmental unit) creates a development plan or master plan (comprehensive plan) or amends an existing comprehensive plan, the plan must contain certain planning elements. The required planning elements include the following: housing; transportation; utilities and community facilities; agricultural, natural, and cultural resources; economic development; land use; and intergovernmental cooperation.

Beginning on January 1, 2010, under current law, certain actions of a local governmental unit that affect land use must be consistent with that local governmental unit's comprehensive plan. The actions to which this requirement applies are official mapping, local subdivision regulation, and zoning ordinances, including zoning of shorelands or wetlands in shorelands. Also beginning on

January 1, 2010, under current law, if a local governmental unit engages in any of these specified actions, the comprehensive plan must contain at least all of the required planning elements.

Current law prohibits any comprehensive plan or amendment to a comprehensive plan from taking effect unless a number of conditions are met, such as, the local governmental unit must enact an ordinance or adopt a resolution that  $\nu$  contains all of the required elements, and the local governmental unit must hold at least one public hearing at which the proposed ordinance or resolution is discussed.

Currently, the intergovernmental cooperation element must contain a compilation of objectives, policies, goals, maps, and programs for joint planning and decision making with other jurisdictions, including school districts, for siting and building public facilities and sharing public services. Also under this element, a local governmental unit must consider the maps and plans of certain military bases with which it shares common territory.

Under this substitute amendment, the intergovernmental cooperation element adds drainage districts as a jurisdiction with which a local governmental unit must engage. The substitute amendment also requires that, under this element, a local governmental unit must analyze its relationship with a drainage district.

The substitute amendment also creates 2 new notice requirements. Under the first requirement, if a political subdivision (any city, village, town, or county) takes any action, or schedules a meeting for which public notice must be given, that relates to the development of land, the political subdivision must send written notice to any drainage district that may be affected by the action. Under the second requirement, if a drainage district takes any action which results in the hiring of an engineer to conduct a study that is related to a drain or to the district, the drain board must send written notice to any political subdivision that has jurisdiction, or extraterritorial jurisdiction, over the area which is subject to the study. Upon the completion of the engineering study, the drain board must also notify any entity which received such notice that the study is complete and information as to where the study may be reviewed.

The substitute amendment requires the Department of Agriculture, Trade and Consumer Protection (DATCP), in cooperation with the state drainage engineer, to produce in 2009, and every three years thereafter, an educational pamphlet about drainage districts. The pamphlet must be available to drainage district boards, or other persons, who request it.

The substitute amendment also requires a drainage board, in 2009 and every three years thereafter, to provide notification to all persons who own property that is located within a drainage district that they own land in such a district, and to provide annually the clerk of every taxation district in which the district is located information about the amount of the drainage board's assessments in the last year. This assessment information must be included on the property tax bill that is currently mailed out in December.

Under current law, a drainage board is required to file an annual report for each district under the board's jurisdiction with DATCP and the county zoning administrator. The report must contain a financial statement, information on bonds,

wich has which of the start of

3

4

5

6

7

8

9

10

11

12

and information on work done during the preceding year. Under the substitute amendment, the report must include information on each district's practices and policies and must also be sent to zoning or planning officials in each city, village, and town in which a district is located. A political subdivision that receives the report must consider it before making a zoning or planning decision that may affect the district.

In addition, the substitute amendment requires an owner of property located in a drainage district, regardless of whether the property is residential, to disclose in a separate written notification to a potential buyer or transferee that the land is in a drainage district and subject to assessments for maintenance of the drains. A prospective buyer may rescind the contract without penalty or loss of earnest money within three days after receiving the separate notice, unless the prospective buyer knew the property was in a drainage district when he or she made the offer to purchase. The substitute amendment requires a drainage board, when issuing an assessment, to remind the person receiving the assessment of the notification requirement that is created in this substitute amendment. The substitute amendment also requires that the most recent property tax bill be attached to the separate required notice if the property is located in a drainage district.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

**SECTION 7.** 66.1102 of the statutes is created to read:

66.1102 Development of land, notification. (1) Definitions. In this section:

- (a) "Development action" means any of the following:
- 1. The publication or dissemination of any public notice under s. 19.84, by a political subdivision, of a meeting at which discussion of the development of land within the political subdivision or within the extraterritorial zoning jurisdiction of a city or village, may occur.
- 2. Any action taken by a political subdivision that is related to the development of land within the political subdivision or within the extraterritorial zoning jurisdiction of a city or village.
  - (b) "Political subdivision" means any city, village, town, or county.

1	(2) NOTIFICATION REQUIREMENTS. As soon as possible after taking any
2	development action, a political subdivision shall send written notice of the
3	development action to any drainage district which has jurisdiction over territory that
4	may be affected by the development action.
5	SECTION 2. 88.16 of the statutes is created to read:
6	$\sqrt{88.16}$ Notification requirements, engineering study. (1) If a board takes
7	any action which results in the hiring of an engineer to conduct a study that is related
8	to the operation of a drain, or the district, the board shall send, as soon as possible
9	written notice of the action to all of the following:
10	(a) The governing body of the city, village, or town that has jurisdiction over the
11	area which is subject to the engineering study.
12	(b) The governing body of the county that has jurisdiction over the area which
13	is subject to the engineering study. ✓
14	(c) The governing body of any city or village that has extraterritorial
15	jurisdiction over the area which is subject to the engineering study.
16	$\stackrel{\vee}{(2)}$ As soon as possible after the engineering study is completed, the board shall
17	send written notice to the governing bodies which received notice under sub. (1)
18	informing them of the study's completion and providing them information as to
19	where the study may be reviewed.
20	SECTION . Initial applicability.
21	(1) The treatment of sections 66.1102 and 88.16 of the statutes first apply to
22	a development action, or an action resulting in the hiring or an engineer, that occurs
28	on the effective date of this subsection.

(END)

# ASSEMBLY SUBSTITUTE AMENDMENT 1, TO 2007 ASSEMBLY BILL 118

January 10, 2008 - Offered by Committee on Agriculture.

AN ACT to amend 66.1001 (2) (g) and 88.24 (intro.); and to create 59.69 (5) (g), 60.61 (4) (g), 62.23 (7) (d) 5., 62.23 (7) (d) 6., 74.09 (3) (dm), 88.11 (1) (L), 88.212, 88.24 (4), 88.41 (5) and 88.95 of the statutes; relating to: requiring local governmental units to consider relationships with drainage districts in the preparation of comprehensive plans and requiring local governments to provide notice to drainage districts regarding proposals that affect drainage districts.

# Analysis by the Legislative Reference Bureau

Under the current law commonly known as the "Smart Growth" statute, if a city, village, town, county, or regional planning commission (local governmental unit) creates a development plan or master plan (comprehensive plan) or amends an existing comprehensive plan, the plan must contain certain planning elements. The required planning elements include the following: housing; transportation; utilities and community facilities; agricultural, natural, and cultural resources; economic development; land use; and intergovernmental cooperation.

Beginning on January 1, 2010, under current law, certain actions of a local governmental unit that affect land use must be consistent with that local

234

1

6 7

5

governmental unit's comprehensive plan. The actions to which this requirement applies are official mapping, local subdivision regulation, and zoning ordinances, including zoning of shorelands or wetlands in shorelands. Also beginning on January 1, 2010, under current law, if a local governmental unit engages in any of these specified actions, the comprehensive plan must contain at least all of the required planning elements.

Current law prohibits any comprehensive plan or amendment to a comprehensive plan from taking effect unless a number of conditions are met, such as, the local governmental unit must enact an ordinance or adopt a resolution that contains all of the required elements, and the local governmental unit must hold at least one public hearing at which the proposed ordinance or resolution is discussed.

Currently, the intergovernmental cooperation element must contain a compilation of objectives, policies, goals, maps, and programs for joint planning and decision making with other jurisdictions, including school districts, for siting and building public facilities and sharing public services. Also under this element, a local governmental unit must consider the maps and plans of certain military bases with which it shares common territory.

Under this substitute amendment, the intergovernmental cooperation element adds drainage districts as a jurisdiction with which a local governmental unit must engage. The substitute amendment also requires that, under this element, a local governmental unit must analyze its relationship with a drainage district.

This substitute amendment also requires that, before a city, village, town, or county (political subdivision) or any zoning entity of a political subdivision may take any action that would allow development of a residential, commercial, or industrial property in a drainage district, or affect the amount of water that a drainage district would have to accommodate, the political subdivision or zoning entity would have to send written notice to the drainage district. The written notice must describe the proposed action, and the time and date of any public hearing at which the proposed action will be discussed. The substitute amendment also allows the drainage district board to request a delay in the hearing so that the drainage board may obtain an engineering report that analyzes the effect of the proposed action.

The substitute amendment requires the Department of Agriculture, Trade and Consumer Protection (DATCP), in cooperation with the state drainage engineer, to produce in 2009, and every three years thereafter, an educational pamphlet about drainage districts. The pamphlet must be available to drainage district boards, or other persons, who request it.

The substitute amendment also requires a drainage board, in 2009 and every three years thereafter, to provide notification to all persons who own property that is located within a drainage district that they own land in such a district, and to provide annually the clerk of every taxation district in which the district is located information about the amount of the drainage board's assessments in the last year. This assessment information must be included on the property tax bill that is currently mailed out in December.

Under current law, a drainage board is required to file an annual report for each district under the board's jurisdiction with DATCP and the county zoning

administrator. The report must contain a financial statement, information on bonds, and information on work done during the preceding year. Under the substitute amendment, the report must include information on each district's practices and policies and must also be sent to zoning or planning officials in each city, village, and town in which a district is located. A political subdivision that receives the report must consider it before making a zoning or planning decision that may affect the district.

In addition, the substitute amendment requires an owner of property located in a drainage district, regardless of whether the property is residential, to disclose in a separate written notification to a potential buyer or transferee that the land is in a drainage district and subject to assessments for maintenance of the drains. A prospective buyer may rescind the contract without penalty or loss of earnest money within three days after receiving the separate notice, unless the prospective buyer knew the property was in a drainage district when he or she made the offer to purchase. The substitute amendment requires a drainage board, when issuing an assessment, to remind the person receiving the assessment of the notification requirement that is created in this substitute amendment. The substitute amendment also requires that the most recent property tax bill be attached to the separate required notice if the property is located in a drainage district.

# The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

**SECTION 1.** 59.69 (5) (g) of the statutes is created to read:

59.69 (5) (g) 1. Before the board or the county zoning agency may take any action under this subsection that would allow the development of a residential, commercial, or industrial property that either would be located within the boundaries of a drainage district or would likely increase the amount of water that the main drain of a drainage district would have to accommodate, the board or zoning agency shall send written notice to the secretary of the drainage district's board. The secretary shall include the subject matter of that notice in the agenda of the drainage board's next meeting, which shall be held within 10 business days of the date on which the meeting notice is sent out.

(2. The notice described under subd. 1. shall describe the proposed action and the time and date of any public hearing at which the proposal is on the agenda.

Within 10 business days after receipt of the notice, the drainage board shall notify the board or county zoning agency, in writing, that it has no objection to the proposed action or that it requests that the hearing be delayed for 90 business days to enable the drainage board to obtain an engineering analysis to analyze the effect of the proposed action on the drainage district. The drainage board may submit the engineering analysis to the county board or to the county zoning agency and may object to the proposed action.

**SECTION 2.** 60.61 (4) (g) of the statutes is created to read:

60.61 (4) (g) 1. Before the town board or the town zoning committee may take any action under this subsection that would allow the development of a residential, commercial, or industrial property that either would be located within the boundaries of a drainage district or would likely increase the amount of water that the main drain of a drainage district would have to accommodate, the board or zoning committee shall send written notice to the secretary of the drainage district's board. The secretary shall include the subject matter of that notice in the agenda of the drainage board's next meeting, which shall be held within 10 business days of the date on which the meeting notice is sent out.

2. The notice described under subd. 1. shall describe the proposed action and the time and date of any public hearing at which the proposal is on the agenda. Within 10 business days after receipt of the notice, the drainage board shall notify the town board or town zoning committee, in writing, that it has no objection to the proposed action or that it requests that the hearing be delayed for 90 business days to enable the drainage board to obtain an engineering analysis to analyze the effect of the proposed action on the drainage district. The drainage board may submit the

2 3

engineering analysis to the town board or to the town zoning committee and may object to the proposed action.

**SECTION 3.** 62.23 (7) (d) 5. of the statutes is created to read:

62.23 (7) (d) 5. Before the city council, plan commission, or plan committee may take any action under this paragraph that would allow the development of a residential, commercial, or industrial property that either would be located within the boundaries of a drainage district or would likely increase the amount of water that the main drain of a drainage district would have to accommodate, the city council, plan commission, or plan committee shall send written notice to the secretary of the drainage district's board. The secretary shall include the subject matter of that notice in the agenda of the drainage board's next meeting, which shall be held within 10 business days of the date on which the meeting notice is sent out.

**SECTION 4.** 62.23 (7) (d) 6. of the statutes is created to read:

62.23 (7) (d) 6. The notice described under subd. 5. shall describe the proposed action and the time and date of any public hearing at which the proposal is on the agenda. Within 10 business days after receipt of the notice, the drainage board shall notify the city council, plan commission, or plan committee, in writing, that it has no objection to the proposed action or that it requests that the hearing be delayed for 90 business days to enable the drainage board to obtain an engineering analysis to analyze the effect of the proposed action on the drainage district. The drainage board may submit the engineering analysis to the city council, plan commission, or plan committee and may object to the proposed action.

**SECTION 5.** 66.1001 (2) (g) of the statutes is amended to read:

√ 66.1001 (2) (g) Intergovernmental cooperation element. A compilation of objectives, policies, goals, maps, and programs for joint planning and decision

SECTION 8. 88.212 of the statutes is created to read:

making with other jurisdictions, including school districts, drainage districts, and adjacent local governmental units, for siting and building public facilities and sharing public services. The element shall analyze the relationship of the local governmental unit to school districts, drainage districts, and adjacent local governmental units, and to the region, the state and other governmental units. The element shall consider, to the greatest extent possible, the maps and plans of any military base or installation, with at least 200 assigned military personnel or that contains at least 2,000 acres, with which the local governmental unit shares common territory. The element shall incorporate any plans or agreements to which the local governmental unit is a party under s. 66.0301, 66.0307 or 66.0309. The element shall identify existing or potential conflicts between the local governmental unit and other governmental units that are specified in this paragraph and describe processes to resolve such conflicts.

**SECTION 6.** 74.09 (3) (dm) of the statutes is created to read:

√74.09 (3) (dm) Indicate the amount of assessment issued by a drainage board, based on the information provided under s. 88.212 (3). If no assessment was issued, the property tax bill shall indicate that information.

SECTION 7. 88.11 (1) (L) of the statutes is created to read:

√88.11 (1) (L) In cooperation with the state drainage engineer, produce an educational pamphlet in 2009, and every 3 years thereafter, that describes the function of drainage districts, costs that may be assessed to persons whose property is located in a drainage district, and contact information for the state drainage engineer. The pamphlet shall be distributed, upon request, to drainage boards and to any person who requests the pamphlet.

/ 88.212 Required actions for the drainage board. In addition to other powers expressly granted or necessarily implied, the drainage board shall:

- (1) Beginning in 2009, and every 3 years thereafter, provide written notice to every person who owns land that is located within the drainage district that such land is in the district. The notice shall also include contact information for every member of the drainage board.
- (2) Annually, provide contact information for every member of the drainage board to the state drainage engineer and to the clerk of every city, village, town, and county in which the drainage district is located.
- (3) Not later than December 1 of each year, provide the clerk of each taxation district in which the drainage district is located a list of every assessment issued by the drainage board from December 1 of the previous year to November 30 of the current year. The information shall specify the assessment amount for every parcel in the district.

SECTION 9. 88.24 (intro.) of the statutes is amended to read:

√ 88.24 Board to file annual report. (intro.) On or before December 1 of each year the board shall file with the department of agriculture, trade and consumer protection; the town board or town zoning committee; the city council, plan commission, or plan committee; and the county zoning administrator, in which district territory is located, a separate report, for the preceding year ending August 31, on each drainage district under the board's jurisdiction. All local units of government that receive the report shall consider it before making any zoning or planning decisions that may affect a drainage district that is located within its boundaries. The reports shall constitute part of the records of the districts reported

on, shall be verified by the oath of one or more of the board members, and shall contain:

SECTION 10. 88.24 (4) of the statutes is created to read:

√ 88.24 (4) A statement of the district's practices and policies. ✓

**SECTION 11.** 88.41 (5) of the statutes is created to read:

√88.41 (5) Whenever a drainage board sends out an assessment for costs, as described in this section, the board shall include a notice reminding the person assessed of the requirement under s. 88.95. ✓

SECTION 12. 88.95 of the statutes is created to read:

vithin a drainage district and is subject to assessments under this chapter for maintenance of the drains. A copy of the most recent property tax bill for the real property shall be attached to the notice.

- (2) (a) Except as provided in par. (b), a prospective buyer or transferee who receives a notice under sub. (1) may timely rescind in writing the contract of sale or option contract by reason of the real property's location in a drainage district, without any liability on his or her part. The prospective buyer or transferee is entitled to the return of any deposits or option fees paid in the transaction.
- (b) A prospective buyer or transferee may not rescind a contract of sale or option contract under par. (a) if he or she was aware, or had written notice, that the real property is located in a drainage district at the time the contract of sale or option contract was submitted to the owner or the owner's agent.

(3) Rescissions under sub. (2) (a) are timely if they are delivered to the owner or the owner's agent within 3 business days after the prospective buyer or transferee receives a notice under sub. (1).

(4) An owner under this section shall act in good faith to inform a prospective buyer or transferee that the real property is located within a drainage district and shall perform each act, and make each disclosure, required by this section in good faith with honesty in fact.

# SECTION 13. Nonstatutory provisions.

- (1) Drainage board requirements.
- (a) Not later than the first day of the 3rd month beginning after the effective date of this subsection, a drainage board that is in existence on the effective date of this subsection, shall meet to develop a plan to notify in writing every person who owns land that is located within the drainage district that such land is in the district.
- (b) Not later than the first day of the 2nd month beginning after the meeting under paragraph (a) is held, the drainage board shall send to every person who owns land that is located in the drainage district all of the following:
  - $\overset{ee}{1}$ . Written notification that the person owns land in the drainage district. ee
  - 2. Contact information for every member of the drainage board.
  - 3. Contact information for the state drainage engineer.  $\checkmark$
  - 4. General information about drainage districts. 🗸

SECTION 14. Initial applicability.

The treatment of section 66.1001 (2) (g) of the statutes first applies to a city, village, town, county, or regional planning commission that begins the process of creating or amending a comprehensive plan on the effective date of this subsection.
