Description The regulation of certain suppliers of liquefied petroleum gas, applicability of the statewide system for notification of the location of transmission facilities, granting rule-making authority, and providing a penalty					

Assumptions Used in Arriving at Fiscal Estimate

2007 SB 273 would require the Department of Commerce to license retail suppliers of liquid petroleum gas (LPG). This provision would also require the promulgation of rules. The legislation also requires customers of LPG suppliers to notify the supplier of any interruption in operation due to modification, repairs, servicing or replacement of the system. This would require a modification to the Department's rules regarding LPG.

The Department estimates there would be 600 suppliers requiring licensing. The annual resources needed to accomplish the workload associated with this licensing is estimated at less than 50 hours annually, which can be absorbed within current resources. Estimated annual revenue resulting from this legislation is \$11,000. One-time resources for the rule promulgation associated with 2007 SB 273's provisions are estimated at \$26,500.
