Description						
Creating an agricultural education and workforce development council and making an appropriation						

Assumptions Used in Arriving at Fiscal Estimate

The establishment of the agricultural education and workforce development council in itself will have no fiscal impact on the University of Wisconsin System. Please see below relative to potential impact in the future.

Long-Range Fiscal Implications

The creation of the agricultural education and workforce council in itself will not have a fiscal impact. However, its potential recommendations may have fiscal implications if, for example, the University of Wisconsin is required to hire additional faculty and staff and/or develop curricula recommended by the council. These implications cannot be assessed at the present time.
