March 2, 2007

Erin Ruby:

This is the amendment to AB 83.

I added the word "jointly" to page 3, line 2 for clarification.

I realize that the technical colleges call the administrator in charge of a district the president, but under s. 38.12 (3) (a) 1. that administrator is called a director.

It looks to me as though most of the technical colleges do not have deans that are strictly deans of agriculture. Please see the language in item 3 of the amendment that I used to deal with that.

Please let me know if you have any questions or redraft instructions.
