under sub. (4s) or an automatic individual permit under sub. (5) (c) for a withdrawal from the Great Lakes basin that is covered by an interim approval under s. 281.344 (5m), the department shall determine a withdrawal amount for the withdrawal under this subsection.

- (b) 1. Except as provided in subds. 2. and 3e. and par. (f), the department shall estimate the withdrawal amount for a withdrawal based on the maximum hydraulic capacity of the most restrictive component in the water supply system used for the withdrawal as of the compact's effective date, based on information available to the department.
- 2. Except as provided in subd. 3e., if the department has issued an approval under s. 30.12, 30.18, 281.34, or 281.41, or s. 281.17, 2001 stats., that is required for a withdrawal and the approval contains a limit on the amount of water that may be withdrawn, the department shall provide an estimate of the withdrawal amount equal to the limit in the approval.
- 3e. If water is withdrawn through more than one water supply system to serve a facility, the department shall determine the amount under subd. 1. for each of the water supply systems to which subd. 2. does not apply and shall determine the amount under subd. 2. for each of the water supply systems to which subd. 2. applies and shall provide an estimate of the withdrawal amount that is equal to the sum of the amounts determined for each of the water supply systems.

- (d) After receiving an estimate under par. (c), a person making a withdrawal may provide the department with information relating to any of the following:
 - 1. The components of the water supply system used for the withdrawal.

- Seasonal variations in the amount of water supplied by the water supply
 system.
 - 3. Plans for expanding the capacity of the water supply system submitted to the department no later than 2 years after the effective date of this subdivision [revisor inserts date].
 - 4. Amounts withdrawn during the 5 years before the year in which the person submits the information.
 - 5. Successful water conservation efforts by persons using the water that is withdrawn.
 - 6. Water loss from consumptive uses of similar types of users compared to the water loss from consumptive use of persons using the water that is withdrawn.
 - 7. Other relevant information.
 - (e) Except as provided in par. (f), the department shall determine the withdrawal amount for a withdrawal based on the estimate under par. (b) and the department's evaluation of any information provided under par. (d). The department may not consider information provided by any other person.
 - (f) For a public water supply system that, on the effective date of this paragraph [revisor inserts date], has approval under s. 281.41 to provide water from the Great Lakes basin for public water supply purposes outside of the Great Lakes basin and approval under s. 283.31 to return the associated wastewater to the Great Lakes basin, the department shall determine the withdrawal amount to be the amount of water necessary to provide water for public water supply purposes in the service territory specified in the sewer service area provisions of the areawide water quality management plan under s. 283.83 approved by the department before December 31, 2007, based on the population and related service projections in those provisions.

- (g) The department's determination of a withdrawal amount under par. (e) or (f) is not subject to administrative review under ch. 227 except at the request of the person making the withdrawal.
 - (h) If 2 or more public water supply systems merge after the department determines their withdrawal amounts under par. (e) and before the department issues the initial individual permits under sub. (5) (c) for the systems, the withdrawal amount for the new system is the sum of the amounts determined under par. (e) for the individual systems.
 - (i) For the purposes of sub. (5) (f) 1. and 2., (h) 1. and 2., and (k) 1. and 2., and (5e) (b) 1. and 2., and (c) 1., and 2., a withdrawal amount determined under this subsection for a withdrawal is considered to be the withdrawal amount for the withdrawal as of the compact's effective date.".
