**10. Regional Review**

**Amend s. 281.346 (5) (m) [page 118, lines 12-18] as follows:**

(m) *Regional review.* The department may determine under s. 281.343 (4h) (b) 1. that a proposal may be subject to regional review only if the proposal results in water loss that averages more than 5,000,000 gallons per day in any 90-day period. If a majority of the members of the regional body request regional review of a proposal described in s. 281.343 (4h) (a) 6. ~~for which approval is required under this subsection~~ and the department determines that the proposal is subject to regional review under s. 281.343 (4h) (b) 1., the department shall conduct a technical review of the proposal and submit the proposal for regional review. The department may not act on the proposal until the proposal has undergone regional review and the department has considered the regional declaration of finding in determining whether to approve the proposal or until 90 days after the department submits the proposal for regional review, whichever is sooner.

Note: This is only intended to apply to regional review of withdrawals, not diversions.

Mike Bruhn:

This amendment corresponds to item 10 of the amendment list.

As I read the compact, if a majority of the members of the regional body request regional review of a proposal under s. 281.343 (4h) (a) 6., the proposal must undergo regional review. Therefore, I conclude that the change made by this amendment is not consistent with the compact.

Please let me know if you have any questions.
