

## Fiscal Estimate Narratives

DATCP 3/2/2007

LRB Number 07-0606/1	Introduction Number AB-0119	Estimate Type Original
<b>Description</b> Authorizing a drainage district to impose setback distances or no-build zones related to drain maintenance		

### Assumptions Used in Arriving at Fiscal Estimate

There will be costs associated with the creation and adoption of the order. There will also be costs with the enforcement of the order, including review of appeals and reconsiderations for special cases. It is assumed that drainage district will bear the cost of recording the order with the register of deeds and sending copies to the planning agencies.

If the drainage district chooses to issue an order for mandatory setback, they will save costs during routine maintenance of the district drain by not having to be concerned with buildings interfering with maintenance equipment.

### Long-Range Fiscal Implications
